Info sign for A4 sheets

Easy and simple information or advertising

Easy to set up, move and update!

Maximum flexibility!

The sign's plastic pocket protects one or more A4 sheets from the elements and can be easily removed and replaced. The plastic pocket can also be filled with two A4 sheets if you want information on both the front and back. The sign can also be quickly moved and set up in a new location or with new information. The sign is therefore perfect for temporary or seasonal information.

Set-up

The sign is easy to carry to its desired location with the inbuilt handle. It can then be easily pressed up to 20 cm into grass or gravel with your foot thanks to the built-in crossbar.
