

PREP

①

Open your SUMO diaper and lie it out flat, with the inner pocket facing upwards.

②

Take a pair of UFO inlays and tuck them into the waterproof pocket.

③

If using our DREAMLINER, tear off a sheet.

④

Place the liner on top and tuck inside the pocket.

WEAR

5

Slide the SUMO under the baby's bum and fold it up between the legs.

6

Guide the first strap through the side loop and fasten the snap buttons.

7

Repeat the same on the other side and secure the two straps into a bow.

8

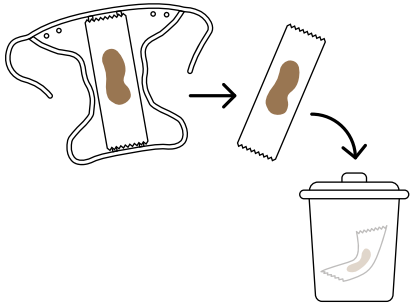

Tuck in any excess fabric and make sure there are no gaps between the baby's legs.

CLEAN & CHANGE

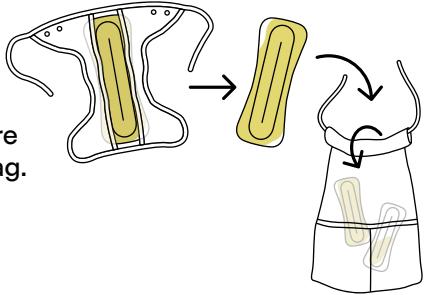

1

Remove the used DREAMLINER and dispose it in your household waste.

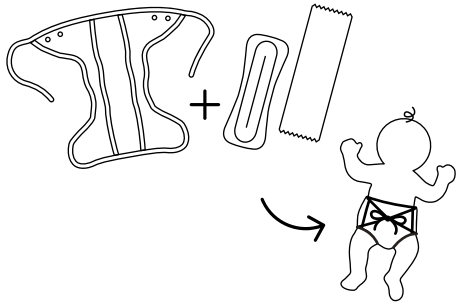

2

Remove the used UFO inlays, and store in your SCHLEPP bag.

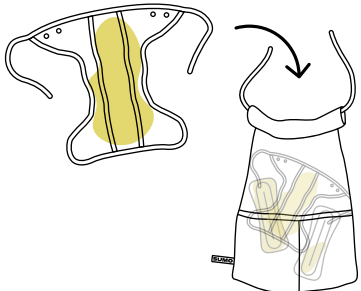

3

If clean, you can reuse the outer SUMO diaper several times.

4

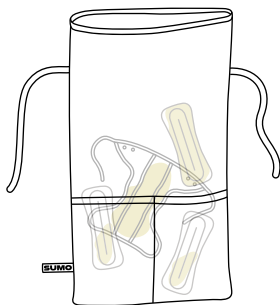

If soiled, add to your SCHLEPP bag, along with the UFO inlays.

STORE & WASH

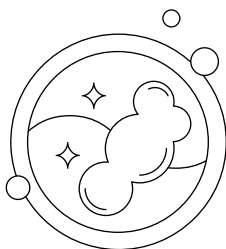

5

Store diapers and inlays for up to 4 days in your SCHLEPP bag. Open and place your bag directly in the washing machine. During washing everything will fall out automatically.

6

Wash on a 40°C program with prewash, spin speed set to 1200 rpm.

7

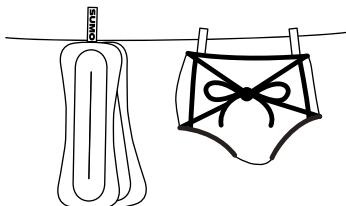

We recommend using a sensitive all-purpose washing powder, which usually cleans cloth diapers hygienically, even at low temperatures.

✦ **Do not use fabric conditioner**

8

Its best to line dry your diapers. UFO inlays can be tumble dried on low heat, but **not** your SUMO diaper.

MATERIALS

Starting with fibre, our products are made of custom engineered materials that are specifically developed to be kind to your baby's skin and the environment.

SUMO Shell

Sumotex™ Lyocell (Tencel™) & Organic Cotton (GOTS)

Origin: Developed & produced in Portugal
