

Heavy-Grade Grass Protection Mesh – MudStop™ HG

Material: HDPE + EVA

Recommended Applications: Placement in grass areas to protect grass from damage due to vehicular or pedestrian traffic.

Physical Characteristics:

Roll Width: 6.7'
Roll Length: 25'
Area: 167.5 sq ft
Roll Weight: 58.62 lbs

Physical Properties:

Thickness: .53"
Color: Green
Structure: Rhomboidal
UV Protection: Yes

Technical Characteristics:

Tensile Strength (ASTM D7179): 876 lbs/ft
Elongation Max Strength (ASTM D7179): 20%
