EUROPEAN TOUR  
SEPT/OCT 2023

May 30, 2023 -- **Soen** have announced the release of their new album, **MEMORIAL**, which will be coming out September 1 via Silver Lining Music.

**MEMORIAL** will be available as a Deluxe CD, 12" Vinyl Album in Black and color variants, digital formats and special D2C products and bundles. For pre-orders, go to [this location](#).

The band have also released the hard-hitting first single, "**Unbreakable**." Watch the video [here](#).

The new single is a statement of intent of what's to come from the forthcoming album and sees the band take a much heavier approach but still retain their melodic sensibilities.

Founding member and drummer **Martin Lopez** comments, "*Unbreakable' is a song about how you limit yourself as a human, by blindly believing in something.*" Vocalist and co-founding member **Joel Ekelöf** continues, "*Politicians and the media paint everything as black or white, entitling you to try to destroy your opponent instead of trying to find common ground. It's key to be humble and open to different viewpoints to keep growing, 'Unbreakable' feels like a marriage between classic-metal and Soen.*"

The new album has a potent drive and sees the band channel the ills of current society with a crisp, riff heavy ferocity but at the same time still showcasing **Soen's** unique blend of progression, aggression, and beauty.

**MEMORIAL** is drenched in melody with face-crushing guitars and rhythms from start to finish. Album opener "**Sincere**" starts off with relentless propulsion, whilst the sheer power of the title track is enriched with a solid groove, underlying the weighty tones and evocative vocals of **Joel Ekelöf**.

Finishing with the beautiful, tragic, Pink Floyd-esque ballad "**Vitals**," **MEMORIAL** is arguably the band finding their best stride yet. **Soen** have been building up to this moment for years and now they're here with **MEMORIAL**, which is an inspiring modern hard rock classic.

**Soen** are completed by **Lars Enok Åhlund** (Keyboards and Guitar), **Oleksii 'Zlatoyar' Kobel** (Bass) and **Cody Ford** (Lead Guitar) and are set to play at this year's Download Festival (GB) on Sunday, June 11, before embarking on the **Memorial 2023** tour in Europe this September, with the newly added show at the Locomotiv in Bologna (IT).
