

## PRECISION COATINGS

A Rainguard Brands Company

## Exploratorium - Pier 15 San Francisco Bay, CA

### REFLECT 3000

Areas Coated	Exterior Metal Railing
Color/Finish	Grizzle Gray, Gloss
Date	2013

Located in San Francisco, California, the Exploratorium is a public learning laboratory exploring the world through science, art, and human perception.

Hand rails surrounding the Exploratorium were hot to the touch during hot weather, posing a danger to visitors. Once the hand rails were coated, field tests confirmed that Reflect 3000 reduced the surface temperature of the metal hand railing by approximately 20%.
