Servicing

The rental covers all servicing, repairs and a quarterly visit where the machine is cleaned and checked. In the event of a break down we will either repair the machine on-site next working day or collect the machine for repair and install a loan machine.

Site requirements

The machine operates from the built-in water tank – No mains water connection required.

- 10 – 20 staff
- Two standard 10 amp power points
- Bench width – 450mm (Including the Jura cooler)
- Height above bench top – 500mm

Accessories

Milk is automatically drawn from the cooler to make cappuccinos, café lattes and flat whites. The Jura 1 litre milk cooler holds 6 cups of milk and the Jura 2.5 litre milk cooler holds 15 cups of milk at 4 degrees in a stainless-steel container. The milk level sensor displays the level of milk in the container and prompts you when to refill. The temperature of the milk is also displayed. Adding the ProSteam allows staff to steam their milk choice from lactose-free to soy, oat and almond.
