

MEGACREM

CREM[®]
EXPOBAR SINCE 1985

WELL GROUNDED

By far the most popular Crem model, the Megacrem is an extremely reliable and stylish espresso machine that rivals its more expensive competitors.

Hand built in Spain by skilled professionals, with only the best quality components, this machine demonstrates Crem's strong attitude towards quality craftsmanship and technology.

User friendly functions include illuminated blue touch pads to control the dose of coffee at the touch of a button, direct pre-infusion, steam pressure gauge, automatic boiler refill and an automatic backflush program for each machine.

You will spot the Megacrem all over Australia, from the remote outback to coffee vans at your favourite market or suburban cafes, as it has proven itself in the harshest of conditions to remain reliable while providing quality extractions.

Shot Timer & Steam Lever upgrades available
