WHO WE ARE?

A leading manufacturer of high-performance automotive components — trusted by enthusiasts and pros worldwide.

We specialize in precision-engineered solutions for: Fuel Systems · Exhaust Systems · Cooling Systems

OUR MISSION

To craft professional-grade performance parts that fuel your passion for automotive customization.

THIS IS EVIL ENERGY

At Evil Energy, we're more than a brand — we're a movement.

Our red devil logo stands for fearless spirit, raw power, and the drive to break limits and defy convention.

For those who build to express, modify to stand out, and live to drive — we're here to fuel your passion.

FACILITY

Our factories in China and Canada cover an area of 10,000 square meters and employ over 300 staff members. We are a direct and professional manufacturer of automotive parts, dedicated to providing high-quality and affordable basic components for automotive enthusiasts.

Serving clients in the Americas, Asia, the Middle East, and Europe, with annual exports exceeding \$3 million.

10,000 square meters factory with over 300 employees.

THREE WAREHOUSES COAST TO COAST

We operate warehouses in Georgia (GA), New Jersey (NJ), and California (CA) to ensure fast, nationwide coverage.

With localized inventory and streamlined fulfillment, your orders ship quickly and reliably — wherever you are in the U.S.

Warehouses in GA, NJ, and CA ensure fast, nationwide coverage.

2-5 day shipping

COMMITMENT TO INNOVATION AND QUALITY

We are dedicated to meeting global customer needs through our exceptional R&D team and diverse product lineup. With over 30 years of experience, we continually launch high-quality products, ensuring that every consumer enjoys the best choices.

R&D Team Over **30** years of industry experience.

More than **20,000** premium components available.

Launching **600** brand new products each year.

Up to **100** consumer-facing products available.

DESIGNING A POSITIVE FUTURE

We engineer high-performance technology with your future in mind, because meaningful innovation starts with people. Choose sustainability for the planet with our eco-conscious automotive upgrade parts.

OUR PROMISE

An aerial view of a city grid with glowing green lines representing energy or data flow. A central square contains a glowing green power symbol (a circle with a lightning bolt).

Boosted Power & Efficiency
Enhance vehicle fuel efficiency while reducing carbon emissions.

An aerial view of a dense forest with a circular path or clearing in the center, featuring a small pond or stream.

Circular Materials
Built with premium recyclable and sustainable materials.

A pair of hands holding a small globe of the Earth. Green energy lines or data flow are visible around the globe, symbolizing environmental care and sustainability.

Eco Donation Drive
For every \$100 spent at ievilenergy.com, we donate \$1 to planet-friendly causes.

500,000+ Raving Fans!

95%

Customer Recommendation

Built on trust, proven on the road.

Dianne Barnes ★★★★★

This install was easy. Looks great and will protect my car. Don't know why the manufacture did not already have it in the car from the factory.

Briar ★★★★★

Love this brand. Used their fuel cell, pump, filter, lines, all of it and NO LEAKS! Everything is high quality and affordable. Will be my go to brand from now on.

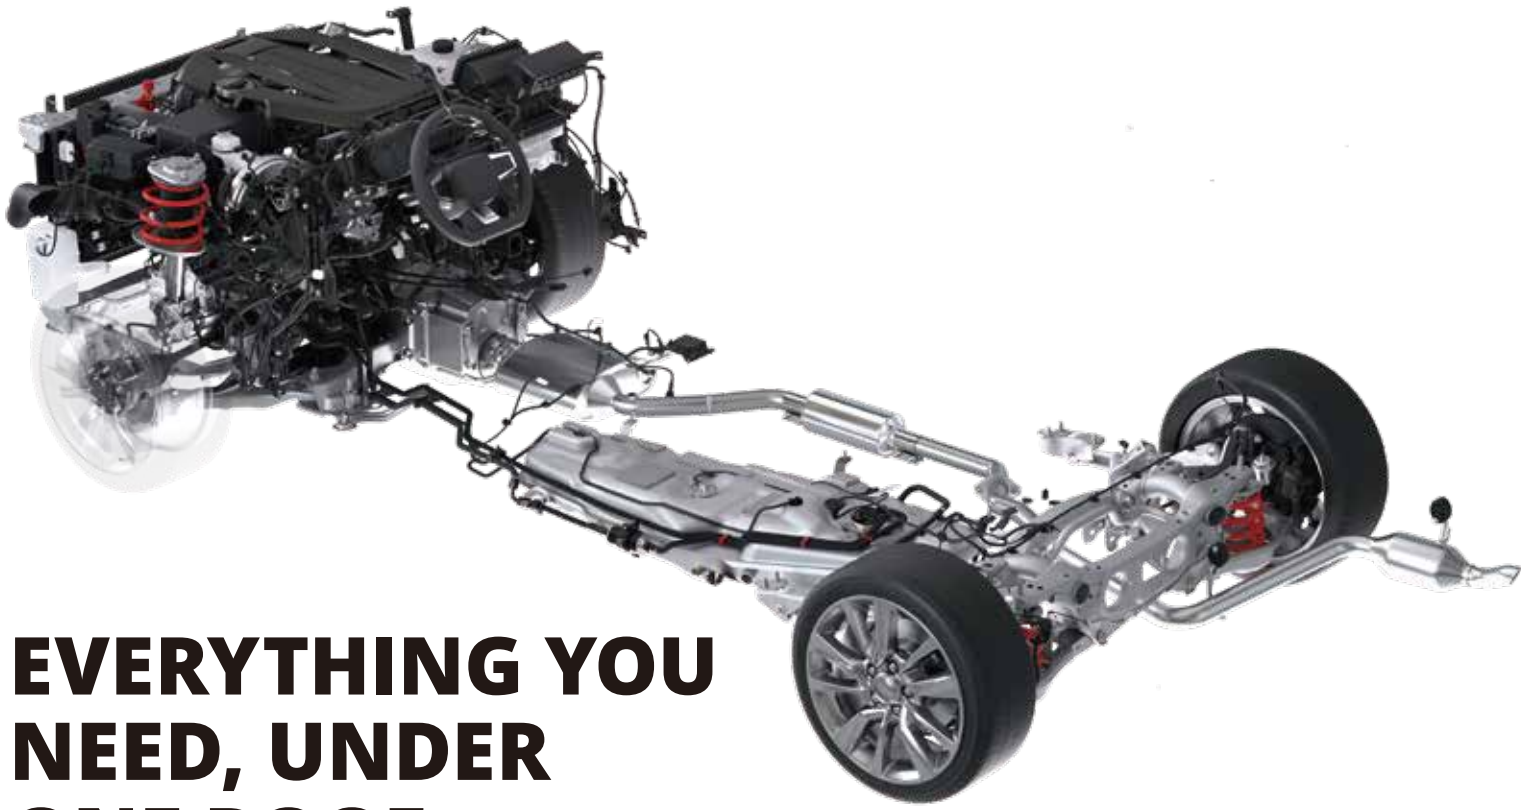

Sam ★★★★★

Came pretty well packaged, the appearance is consistent no defects, sturdy hose and was pretty easy to install fittings. Outside is soft so far no leaks and I'm using it with E90.

Adam ★★★★★

Was skeptical at first but this pump delivers. I run these on derby cars anywhere from 35 psi to 80psi with no issues yet. Definitely recommend evil energy products.

PTFE FUEL LINE

3-LAYER CONSTRUCTION

High-density fuel hose is built to last

PRECISION FIT AND LEAK-FREE PERFORMANCE

Durable Triple-Layer Construction – **PTFE core, stainless braid, nylon exterior** resists abrasion and harsh conditions.

Universal Fuel Compatibility – Works with **gasoline, diesel, E85, ethanol blends** without degradation or corrosion.

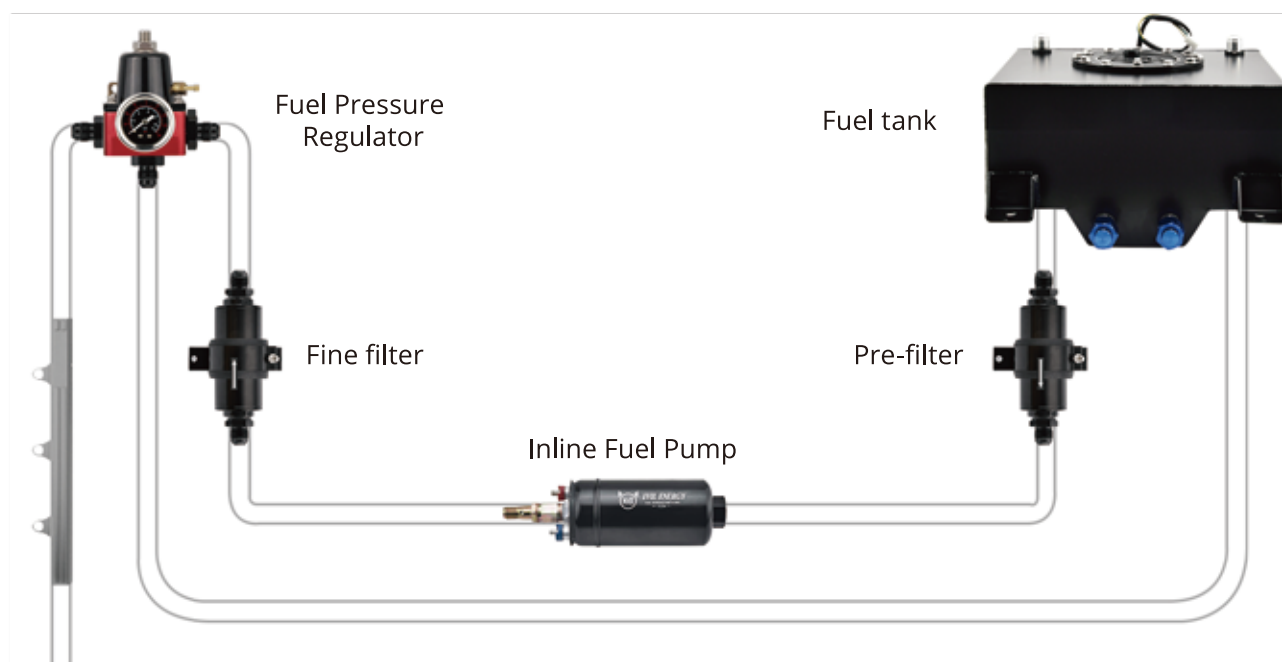

High Pressure & Temperature Rated – Handles 2000–4000 PSI, bursts up to 12,000 PSI, -76°F to 446°F.

Easy Upgrade & Versatile Use – Perfect for **EFI, carb, turbo oil feed, transmission, and vapor lines**.

EVIL ENERGY FUEL CELL

LEAK-FREE DESIGN, CONTROLLED SLOSH, MAXIMUM SAFETY

Fully welded shell

TIG welding eliminates seams or rivets that might corrode or fail.

Roll-over vent valve

Seals manually with a secure cap to prevent spills or vapor release during use.

AN fittings

Threaded, aerospace-grade connections that hold tight under high fuel pressure.

Anti-Sloshing Foam

Minimize fuel slosh and reduce risks of explosions.

With 3-90 Ohms Fuel Level Sensor Monitor the fuel level in the tank

Note: Sensor not included with 1-gallon fuel cell.
