BELL 505

FEATURED PRODUCTS

1 Emergency Float System

DART delivers superior safety for operators using their 505 in overwater application with Tri-bag floats made from lightweight urethane coated nylon.

- Optimal stability with 6-pod Tri-bag float design
- Single inflation reservoir
- Patented lightweight urethane-coated fabric
- Available for factory install or aftermarket retrofit
- Float servicing plans also available

GEAR UP

2 Bearpaws with Wearplates

- Lightest bearpaws available for 505
- Keeps tail high in soft terrain to prevent tail strikes
- Wearplates available as option for traction and increased durability
- CNC machined UHMW polymer provides consistent load transfer
- Easy to install without skidtube modification
- Float compatible

GEAR UP

3 Float System Pull Cable Test Tool

- Used for installation and maintenance of DART Emergency Float Systems
- Attaches to installed reservoir valve and duplicates functionality during pull cable testing
- Includes custom carrying case

TOOL UP

4 One-Piece Float Skid tubes

NEW!

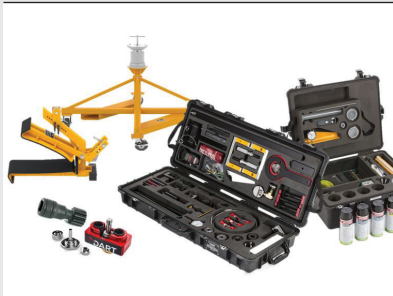

Whether you are looking to equip your new aircraft with DART Flotation at factory or retrofit a kit to meet contractual requirements, DART has a new Landing Gear solution to help you get Mission Ready with ease. Choose your Wearplate option and the rest is plug-and-play.

- No life limit, replace on condition
- Compatible with DART EFS, no extensions required
- Full-length Heavy-Duty wearplates available
- Thru-Bolt wearplates for ease of replacements
- Round-I-Beam Skidtube design for increased durability
- Compatible with OEM GHW and Crosstubes
- Standard skid tubes without float provisions also available
- Shipped glossy black standard

Note: The picture showcases a standard skid tube, not a float skid tube.

TUNE UP
