Airbus Helicopters

Reduce your recurring maintenance costs with landing gear solutions that provide increased durability. Increase your operational safety with DART's emergency flotation systems and cable cutters wherever your operations take you. Stay tuned for our upcoming new products.

# FEATURED PRODUCTS

## 1 Tri-bag™ emergency float system with integrated liferafts

Offers external liferafts for added safety during overwater missions and Tri-Bag™ float design for better buoyancy and safe salvage operations. Excellent aftermarket service and exchange program make DART the industry leader for emergency float systems.

- Significant weight reduction over competition
- Cabin space savings with integrated liferafts
- Longer maintenance intervals
- R&O services available

### OPTIONS AVAILABLE:

- With or without liferaft
- Hoist guards
- Auto inflation
- Skid extensions
- Float system pull cable test tool

GEAR UP

## 2 Crosstubes

DART now offers replacement Standard Low and Mid-Height Crosstubes compatible with both DART Round-I-Beam™ and OEM Skid tubes. Easy to install using OEM-style saddles with clamps, our Crosstubes come with factory-installed supports for ease of replacement. Our design offers maximum corrosion protection by means of improved alloy and primer. DART Crosstubes are not life-limited; they are to be replaced on-condition.

- Available in Standard Low and Mid-Height
- Available with or without saddles
- Comes out of factory-installed supports
- Tube made of high strength aluminum alloy
- Protected with high performance anti-corrosion primer
- Crosstubes can be replaced as a set or on an individual basis
- Compatible with OEM saddles, steps, skid tubes and floats.

NEW!

TUNE UP

## 3 Skid tubes

DART Round-I-Beam™ skid tubes are 10x stronger and full length wearplate protection comes standard. Designed to accommodate extreme conditions involved during military operations, the central I-beam web absorbs the impact on landing in order to maintain the tube integrity.

- Available as a PMA or STC installation
- DART standard skid tubes available

TUNE UP

#### 4 OEM replacement wearplates

Offer full compatibility with OEM Skidtubes at a cost saving.

- Direct OEM Replacement
- Standard and float skid tubes wearplates available
- Tungsten carbide welds for additional wear protection
- Competitive pricing
- TCCA-PDA
- Full-length heavy duty STC option coming soon

TUNE UP

#### 5 Cable cutter system

Prevent possible wire or cable strike on flight controls.

- Added safety
- Lowest acquisition cost and shortest lead time
- Includes upper, lower cutters, wiper and skid tube mounted deflectors
- Optional GPS antenna mount

GEAR UP

#### 6 Series 500 compressor wash

Various Wash System types available to suit your operations needed.

- Offers precision compressor blade maintenance ideal for hangar or tarmac use
- Reduce engine operating and overall costs
- Increase performance with regular compressor blade maintenance

TOOL UP

#### 7 Bearpaws with wearplates

- Keeps tail high in soft terrain to prevent tail strikes
- Lightweight & durable
- Easy to install without skid tube modification
- Wearplates included

GEAR UP

#### 8 Tools & Ground Support Equipment

Work with DART's 3,500 maintenance tools and equipment.

- Shortest lead times
- Target to ship within 24 hrs
- OEM-level quality
- Reduced acquisition cost over OEM

HUGE SAVINGS!
