

FORTRESS PLUS RANGE

Commercial Grade Folding Indoor/Outdoor Furniture

Don't confuse the Fortress Plus range with a lightweight or domestic grade "picnic table and chairs".

Fortress Plus is made tough to withstand the rigours of commercial use. In fact it is strong enough to pass the demanding European Standard for commercial applications EN15372:2016 (furniture in non-domestic applications) as tested by SGS the world leading testing and certification body. Fortress Plus also passes the highest level (Contract Level) of European standard EN581

for outdoor furniture. All Moving parts have been cycle tested for durability. That means you can be confident that your investment in quality will be repaid over many years.

Now featuring a darker and more professional looking Graphite Grey tone, Fortress Plus will not look out of place in any office or institutional setting.

In a further improvement the tables now come with integrated linking clips. These allow you to connect & level the tables to create larger and more secure settings.
