

# Syncline Range

By Sylex Ergonomics

[www.sylex.com](http://www.sylex.com)

*It's all about flexibility*

## SYNCLINE

The modern design of the Syncline Range meets the needs of the dynamic office by providing flexibility of layouts and multiple functions with a single range of furniture. In today's new workspace, furnishings need to be more efficient in using limited space. Syncline makes this happen with ease.

With a simple twist adjustment the table top can be folded up and wheeled away for compact storage and when required easily moved back into the same or different configurations. The 1500 table comes standard with linking mechanism so when you have set up the area you can link them together to stop people moving them, combined with the lockable castors this makes the Syncline one of the most flexible and stable tables you will have seen. Perfect for Classroom, Training rooms, Conferences or for any temporary work space.

### NSW Head Office

The Syncline comes in 2 convenient sizes the single desk 750 x 550 with a curved top to improve ergonomics by maximising close hand space. The double desk uses a straight top 1500 x 550 allowing for 2 to use it at the same time. This size also allows for the user to create configurations from the traditional class room to L shaped and U shaped set-ups.
