

2024 PRINT PACKAGES PRICE GUIDE

OCTAGONAL 50 SERIES

Price List valid to end
May 2024

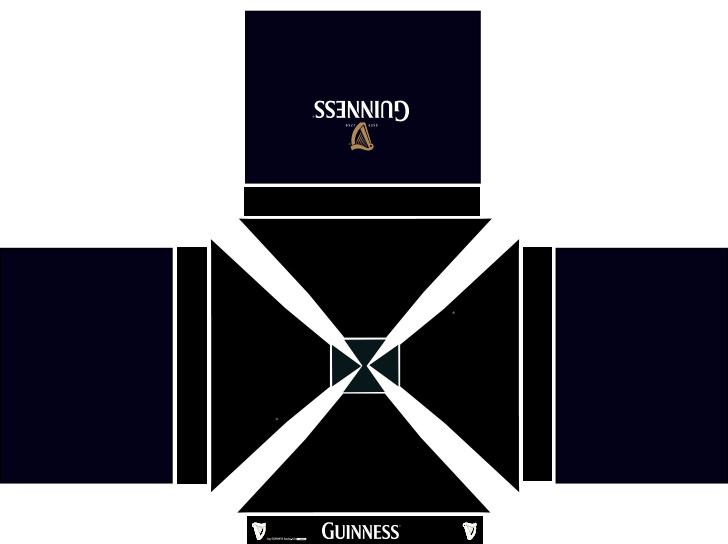

Below you will find print package prices for the 3 different sizes of **OCTAGONAL 50** series - this is more to give you an idea of price for your tent than to suggest that this is what you must have! Since we make everything to individual specification, you can of course have the layout you desire. For other options & accessories please ask to see our accessories brochure. Certain essentials are shown at the end of this price list. *Please call or email to discuss any special requirements.*

You might also be interested in the following accessories:

Hard-standing Kit Packages

As with any temporary structure, it is important to consider how to secure your gazebo against blowing away in windy conditions. For hard ground use, we recommend the use of our 30kgs. The weights prices below are discounted and are only available at this price when buying a printed gazebo

Suitable for	Hard-standing kit options
2x2, 3x2, 4x4, 3x3 & 4.5x3m tents	4 x 30kgs round jigsaw weights (1 per leg)
For use in winds over 22mph we recommend double weights per leg	8 x 30kgs round jigsaw weights (1 per leg)
6x3 tents	6 x 30kgs round jigsaw weights (1 per leg)
For use in winds over 22mph we recommend double weights per leg	12 x 30kgs round jigsaw weights (1 per leg)

Fluorescent Weight Covers

This is how to make your set-up look really professional, while at the same time keeping H&S off your back! The covers are made with machine-washable polyester, so they will continue to look smart long after your weights are showing signs of use.

The weight covers in the photo are made for double (60kgs) round weights, but you can also order single weight covers. Single covers: £8.00+VAT Double covers: £10+VAT

PRO Guying Set for Soft Ground

For soft ground you should choose our heavy duty PRO guying set - cheaper, lighter and more effective than weights in windy conditions

Suitable for	Hard-standing kit options
2x2, 3x2, 4x4, 3x3 & 4.5x3m tents	PRO Guying Set includes: 4 x heavy duty galvanised pegs, 4 x ratchet straps, 8 x foot and wall pegs, gloves, hammer and a bag
6x3 tents	PRO Guying Set includes: 6 x heavy duty galvanised pegs, 6 x ratchet straps, 12 x foot and wall pegs, gloves, hammer and a bag

Stability Bar sets

Probably the biggest improvement you can make to your OCTAGONAL is to add a set of stability bars, especially on hard ground. Not only do they prevent the walls from bowing in the wind, they also prevent the legs from bending inwards as the wall bows in like a sail.

Highly recommended at just £19.95 per 3m section including brackets

NOTES

Prices: All prices exclude VAT & transport, and are based on typical print packages. You can, however, have exactly what you want as far as print goes. If your layout is not shown here, please ask for a quote.

Free Artwork Layout: if you supply your logos as EPS files with fonts turned to outlines, and pantones specified, we are happy to lay out your gazebo artwork FOC with up to 4 revisions.

Help: if you need help with your gazebo purchase please call on 01840 213063, or email: shelter@instantmarquees.co.uk

Your Artwork: please ensure that ALL fonts are turned to outlines, Pantones are specified for colour matching and any photos are supplied at 300dpi at 50% of their size. Please use our templates which can be downloaded from our website: instantmarquees.co.uk. Save your artwork as an .eps, .ai or hi-res PDF with the company name in the title and send it via email or if over 25mb, via wetransfer.com

Please ask to see the Printed Price Guide for the ULTRA HD - almost certainly the best engineered pop-up in the UK today.
