READ SAFETY DIRECTIONS

CANE TOAD KILLER

Active constituent:
40 g/kg CHLOROXYLENOL
HUMANE SPRAY
Net Contents: 300 g

Protect-us™
Manufactured in Australia

A SPRAYABLE PRODUCT FOR THE HUMANE CONTROL OF CANE TOADS.

HOW TO USE:

- For outdoor use only. Wear gloves when using product or handling toads.
- Remove tear-off tab from top of trigger before first use.
- Shake can well before use. Ensure nozzle is pointing downwards towards toad.
- Hold 20-30 cm from the toad, and spray for 2-3 seconds. Movement of the toad out of direct spray during treatment may require retreatment. Observe toads after treatment for a period of 1-2 minutes.
- Large toads (more than 10 cm long) should be sprayed a second time (2-3 seconds) when they stop moving, or are moving slowly. Smaller toads that continue to move 1-2 minutes after treatment should be sprayed again for 1-2 seconds and observed for a further period with retreatment as necessary.

COLLECTION OF DEAD TOADS: Use gloved hands to collect dead toads 1-2 hours after treatment. Dead toads should be collected and wrapped in paper or a plastic bag then placed in external household garbage.

USE THIS PRODUCT ONLY AS DIRECTED

Contents will kill 35 average-sized toads (8-10 cm in length).

PRECAUTIONS

KEEP OUT OF REACH OF CHILDREN

EXTREMELY FLAMMABLE

DO NOT SPRAY ON OR NEAR A NAKED FLAME, PILOT LIGHT, HEAT OR INCANDESCENT MATERIAL.

DO NOT spray directly on people, pets, exposed foods, water, food preparation areas or food utensils.

DO NOT spray near the eyes or towards the face.

DO NOT spray on or within 1 m of waterways or fishponds, particularly under windy conditions, to minimise contamination from spraydrift.

Will harm plants. DO NOT spray directly onto grass or plants.

Potentially toxic to bees. May kill bees foraging nearby. Residues may remain toxic to bees for several days after application. DO NOT spray while bees are actively foraging on and around the treatment area.

Care should be taken not to spray furniture and plastic surfaces without prior testing.

BEWARE: DELIBERATELY SNIFFING OR INHALING CONCENTRATED SPRAY CAN BE HARMFUL OR FATAL.

STORAGE AND DISPOSAL

Keep in a cool place out of the sun. Do not puncture or incinerate can, even when empty. Recycle empty cans if a facility is available or dispose of empty container by wrapping with paper and putting in garbage.

SAFETY DIRECTIONS

Will irritate the eyes. May irritate the skin. Repeated exposure may cause allergic disorders. Avoid contact with eyes and skin. If product in eyes, wash out immediately with water. Wash hands after use.

FIRST AID

If poisoning occurs, contact a Doctor or Poisons Information Centre. Phone Australia 13 11 26, New Zealand 0800 764 766.
