

24/SEVEN INTERLOCKING RUBBER MAT - HOLES

Made with drainage holes, this interlocking matting is suited to wet areas where custom sizes may be required.

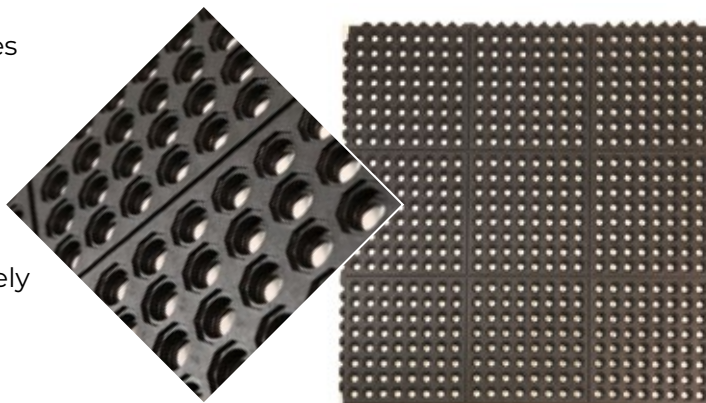

This exceptional value mat is conveniently sized for workstations at 900mm x 900mm, but is designed to comfortably fit in large custom sized areas.

Its hidden interlocking system connects on all four sides creating large mats without additional connectors.

FEATURES & BENEFITS

- Interlocking Anti-fatigue mat with drainage holes
- Ideal for areas requiring a large custom size
- Available in natural or nitrile rubber, depending on environment the mats are going into
