

WELDSAFE MAT

ANTI-FATIGUE MAT

WeldSafe dramatically reduces fatigue while withstanding the challenges of welding environments.

The Weldsafe Mat is specifically formulated to repel sparks and hot metal shards. Its thick rubber surface has a melt point of over 260 degrees Celsius. The super resistant Nitricell sponge base is a nitrile rubber composite that offers unparalleled comfort during long shifts.

FEATURES & BENEFITS

- All edges are bevelled to make this an effective non trip, non-slip mat
- Specifically formulated to repel sparks and hot metal shards
- Offers extra durability in heavy use situations
- Gives unparalleled support and comfort during long, strenuous shifts

SPECIFICATIONS

Uses	Welding environments
Materials	Rubber Surface/Nitricell Sponge backing Bevelled safety edges
Thickness	12mm

COLOURS

Black

RECOMMENDED FOR

- Welding
- Industrial
- Factories
