Product Specification

- Item: KC200
- Max. Capacity: 2000g
- Division: 0.1g
- Weight Limit: 2020g
- Material: ABS/Silicon
- Battery: built-in rechargeable 800mAh Lithium battery
- Charging Method: TYPE-C USB cable and 5V DC/1A adapter(self-provided)
- Charging Display: "▨" flashes when charging, "▨" is constant on when fully charged
- Low Battery: "▨" flashes when low battery. This continues until " L0 " appears and then OFF automatically

- Product Size: 95 x 100 x 19mm
- Units: g / oz / ml
- Timer Range: 9' 59''
- Display: LED Digit

PR1 Espresso Mode

PR1 0:00ᴛ   0.0 g

Put the coffee scale onto the Espresso machine platform. Turn on the scale. Put a cup on the scale. The weight of the cup will tare automatically.

①

PR1 1:36ᴛ   153.6 g

Start the Espresso machine. The scale starts weighing and timer starts automatically once it senses the pour of coffee. After extraction is completed, weighing and timer stop automatically. Remove the cup and datas are displayed for 3 seconds. Another 3 seconds count down begins and the datas are cleared. You are ready for the next extraction!
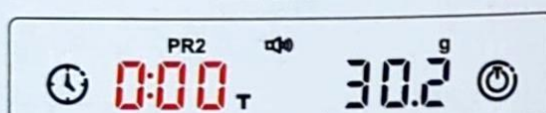

②

PR2 Manual Mode

① **PR2** 🔇 `0:00` T `0.0` g ⏱

Turn on the coffee scale. Place coffee pot + filter paper on the scale platform. When ready, press " ⏱ " to tare.

② **PR2** 🔇 `0:00` T `30.2` g ⏱

Add ground coffee to your desired weight. The scale measures the weight.

③ **PR2** 🔇 `0:01` T `0.1` g ⏱

Press " ⏱ " to tare. Ground coffee's weight is cleared.
Ready for brewing! Press " 🕐 " to start the timer while pouring in water.

④ **PR2** 🔇 `2:30` T `326.5` g ⏱

<Brewing Time>   <Coffee Amount>

When brewing is completed, all datas are displayed precisely.

PR2 Manual Mode with Auto Timer

① **PR2** 🔇 `0:00` T `0.0` g ⏱

Turn on the coffee scale. Place coffee pot + filter paper on the scale platform. When ready, press " ⏱ " to tare.

② **PR2** 🔇 `0:00` T `30.2` g ⏱

Add ground coffee to your desired weight. The scale measures the weight.

③ **PR2** 💧 🔇 `0:01` T `0.1` g ⏱
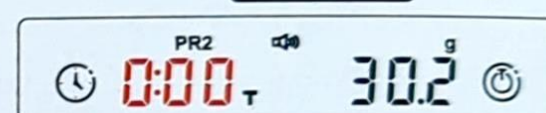

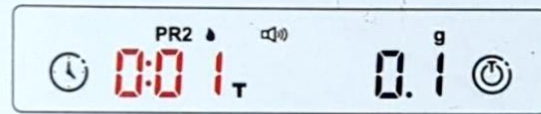

When ready to brew, press and hold " 🕐 " to activate Auto Timer(💧 symbol). With the appearance of " 💧 ", when pouring in water, timer starts automatically and weighing starts.

④ **PR2** 💧 🔇 `2:30` T `326.5` g ⏱

<Brewing Time>   <Coffee Amount>

When brewing is completed, remove the cup and datas are displayed for 3 seconds. Another 3 seconds count down begins and the datas are cleared. You are ready for the next extraction!
