

WINCHESTER TV BED

6FT

PLEASE READ this sheet prior to assembly to familiarise yourself with the various stages of construction. Carefully open the pack supplied and check the contents against the parts and fittings check list.

Do not destroy any of the packaging until you are certain that you have all the necessary parts for the assembly.

Please ensure that the packaging is disposed of in a safe environmentally friendly way.

CAUTION: There are small components used in the construction of this unit. These loose items should be kept away from young children during assembly, to avoid the danger of choking.

IMPORTANT: BEFORE STARTING TO ASSEMBLE THE BED - PLEASE READ THESE INSTRUCTIONS CAREFULLY

Please retain your assembly instruction and tools provided for future use. Periodically check that all bolts are still tight.

Assembly requires two persons.

Approximate time to assemble this product

1.5 HOUR

IMPORTANT SAFETY INSTRUCTIONS

	WARNING RISK OF ELECTRIC SHOCK DO NOT OPEN	
CAUTION: TO REDUCE THE RISK OF ELECTRIC SHOCK, DO NOT REMOVE COVER (OR BACK). NO USER - SERVICEABLE PARTS INSIDE. REFER SERVICING TO QUALIFIED SERVICE PERSONNEL.		

The lightning flash with arrowhead symbol, within an equilateral triangle, is intended to alert the user to the presence of uninsulated "dangerous voltage" within the product's enclosure that may be of sufficient magnitude to constitute a risk of electric shock to persons.

The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.

1. Read these instructions.
2. Keep these instructions.
3. Heed all warnings.
4. Follow all instructions.
5. Do not use this apparatus near water.
6. Clean only with dry cloth.
7. Do not block any ventilation openings. Install in accordance with the manufacturer's instructions.
8. Protect the power cord from being walked on or pinched particularly at plugs, convenience receptacles, and the point where it exit from the apparatus.
9. Only use attachment / accessories specified by the manufacturer.
10. Unplug this apparatus during lightning storms or when unused for long periods of time.
11. Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as does not operate normally.
12. Warning : to reduce the risk of electric shock, do not expose this apparatus near moisture.
13. The mains plug is used as the disconnect device, the disconnect device shall remain readily operable.
14. Unplug this apparatus when the apparatus has been damaged, then refer all servicing to Professional.

M  x13

Push bolts (B) through spring washers (G), flat washers (F). Hold tray firmly against side panel (4) as shown and screw in x4 bolts. When all screwed in place, tighten bolts 100%.

Assembly

Stage
6

Connect the Mains Power Lead (25) into the 3 Pin socket located on the right-hand side at bottom of the footboard (2). Connect UK plug to your wall socket. Note that the power supply to this plug must be earthed. The plug must be easy to reach if you need to disconnect the power at any time.

To operate the TV Mounting Column (Z) there is a switch (Y) in each side panel of the bed near the headboard (1). The switches are connected to the TV Lift control system by lift up socket on each side of the TV Mounting Column (Z) - make sure they are plugged in properly - align the arrows on the labels and push right in. One can now operate the TV Lift.

Note: If you press the Up or Down button in quick succession (1 Min), the TV Lift does not move - this is normal, just press the button twice.

Assembly

Stage
7

D  x4 F  x4 J  x1

Carefully remove the 4 x "VESA" screws from the back of the TV. VESA screws are used as standard screws to fit to other type of wall mountings.

Secondly, you may take out metal plate X from the TV lift mechanism and fix at the back of the TV unit by using 2 x "VESA" screws.

Connect the TV to the lift mechanism by adjusting the TV bracket located at the top of the TV lift by using the bolt (D) and flat washer (F) in your fixing bag.

Stage
8

Pass the TV Power Lead, Aerial Lead and HDMI Lead through the LEFT or RIGHT duct. Choose the duct to suit connections on your TV.

Note: Power socket for the TV is not to be used for any other equipment because it is not permanent. It cuts off power to TV when TV is down in the starting position. When TV raises up, power is restored automatically.
