

Powerful, Reliable, and Fully Integrated into Geotab.

FleetFlix Al+ Pro Dashcam.

O Coverview

Meet the FleetFlix Al+ Pro! With its Al-powered LDW (Lane Departure Warning) and FCW (Forward Collision Warning) advanced driving assistance features, the device prevents accidents by identifying potential dangers on the road ahead.

Its AI-powered DMS (Driver Monitoring System) further increases driver safety by detecting distracted driving, drowsiness, smartphone usage, and smoking. With Its dual 1080p front dash and interior cameras, the FleetFlix AI+ Pro Dash Cam simultaneously captures and processes vibrant HD video footage of the driver and the prevailing road conditions ahead of it. Footage can be stored in the cloud + locally. The FleetFlix AI+ Pro includes live view, IR night vision, a rugged design, OBD2 cabling for power, OTA updates, a panic button, and tamper notifications. Fully integrated in Geotab.

FleetFlix Al+ Pro Highlights

Fully Integrated into Geotab

You can view and download the automatically sent snapshots and video clips of critical incidents and important exceptions directly to the FleetFlix Al+ Pro Add-In within MyGeotab without the need to open a separate website or program. Exception video clips are retained by the Add-In and are available for viewing and download any time.

Al-Powered Accident Prevention

Prevent accidents and cut insurance costs with the Al-powered LDW (Lane Departure Warning) and FCW (Forward Collision Warning) features in the FleetFlix Al+ Pro. When it detects potential dangers on the road ahead, the device alerts your drivers to take timely corrective action as well as uploading video clips of serious incidents for follow-up and analysis.

Al-Powered Driver Wellbeing

Improve driver safety and wellbeing with the Al-powered DMS (Driver Monitoring System in the FleetFlix Al+ Pro. With its ability to detect distracted driving, drowsiness, smartphone usage, and smoking, the device alerts your drivers of risky or illegal behaviors and provides the data you need to identify issues that can potentially impact driver health and performance.

Full HD Dual-Cam Video

Featuring dual 1080p front dash and interior cameras, the FleetFlix AI+ Pro simultaneously captures and processes vibrant HD video footage of the driver and the prevailing road conditions. Footage can be stored locally using a Micro SD card and can be uploaded to the cloud over 4G or Wi-Fi. Customizable alerts can be set to enable real-time video uploads of collision alerts to the cloud using 4G wireless.

Rich Telematics Data

With its CAN bus support, the FleetFlix Al+ Pro enables the collection of rich vehicle usage data including speed, distance, idle time, and fuel consumption that can be uploaded to the cloud and analyzed to identify opportunities for optimizing fleet efficiency and safety. By flagging up G-Sensor events such as revving up, hard braking, and hard cornering, the device provides fleet operators with additional insights for improving driver behavior and reducing wear and tear on their vehicles.

Reliable 4G Connectivity

Certified by AT&T, T-Mobile, and Verizon, the FleetFlix AI+ Pro delivers reliable 4G connectivity with the world's leading carriers – ensuring real-time tracking and alerts no matter where the vehicle happens to be.
