MANUAL			

ACCESSORIES

1. Backpack

Wheeled backpacks are only available for specific kayak models. Single-person kayaks typically come without this feature.

2. Paddle

1. Connect the paddle section with the paddle handle section to fix.
2. One of the paddle handle sections has 3 mounting holes that can be changed to adjust the direction of the paddle blade.

3. Dual-Action Hand Pump

*Standard pressure for kayak: 8PSI (please inflate to standard pressure)

- Double-Action – pumps air on both up and down stroke to make inflation twice as fast
- Inflates and deflates with one pump!
- Twice as effective as a regular pump
- Fitted with a gauge for optimum PSI
- Compact, light-weight and easy to use

*Note that the gauge on your inflatable kayak will not register until the board is at 5 PSI.

4.SKEGS

The skeg improves kayak tracking when paddling in the sea or large open waters in general.

- Removable skeg
- No tools required SKEG
- Easily slides and locks into bottom mount

*Note:

Don't sit in the kayak on the ground with the skeg installed.

This can cause damage to the receiving patch and to the floor of the kayak.

5. Seats

- Equipped with 4-way adjustable mounting straps
- Please refer to the installation procedure of P8 product for details

6. Footrest

7. Drainage port

Drain the boat on shore to remove excess water.

8. Repair KIT

9. High Pressure Valves

Inflate

Upper Position

Deflate

Lower Position

INSTALLATION

1. HOW TO INFLATE A KAYAK?

Inflate both side chambers (to 1.5PSI) → Place in inflatable floor → Inflate floor (to 8PSI) → Refill both side chambers to 8PSI → Seat installation → Footrest installation → Skeg fin installation → Paddle installation → Life jacket donning

INSTALLATION

2. HOW TO ATTACH THE KAYAK SEAT?

1) The Seat

The straps at the top of the seat will attach in front of the seat and the lower straps will attach behind the seat.

2) The Kayak

Locate where you want to attach the straps.

3) Place The Seat Into The Kayak

So that the fold if the seat is resting snugly against the back of the seat area.

4) Attach The Clips In The Correct Areas

5) Tighten the straps

It is best to tighten the straps gradually until you are happy with the position of the seat. Make sure that you end up with the straps taught so that the seat does not move while you are using the kayak. If installed correctly the back rest should end up slightly curved.

TIP: To get the most power out of your paddling make sure that the back rest as close to vertical as possible.

6) How To Remove The Seat

To remove the seat slightly loosen one of the straps so that you can unclip it. You should then be able to unclip the rest of the straps easily, The next time you put the seat in it will be a lot quicker as all the other straps will be correctly set up.

HOW TO DEFLATE & STORE

1. Remove accessories and place the kayak on its side: Dismantle the paddle and remove the accessories from the boat making sure that you wash them off with fresh water, particularly any metal work which can seize up if salt water is not washed off. With the drop stitch kayak we find the easiest way to deflate the kayak is by starting with it on its side.
2. Open each valve and let the kayak flatten: To open the valve push down the spring loaded pin down.
3. Make the first fold just after the finbox.
4. Make another fold the same size as the first one.
5. Make a small fold to fold in the other nose cone.
6. Fold this section on top of the rest of the kayak.
7. Secure with the kayak strap.
8. Tighten the strap to secure the kayak.
9. Place the kayak in the bag with all of the accessories ready for your next adventure.

WARRANTY

Warranty Information

We offer a one-year limited warranty against manufacturing defects.

This warranty doesn't cover obvious abuse, such as running over your kayak or dragging it across shards of glass (c'mon.)

If you suspect something with your purchase isn't quite right or if you are missing an accessory, please let us know right away.

If you notice any damage or malfunction, please email us at:

info@beyondmarina.com

We love our customers.

We truly appreciate your support and would love to hear from you. We're excited to see where your adventures take you with Beyond Marina!
