Extra size extra beauty

The use of large slabs creates a visual effect of continuity, making spaces look bigger and leveraging the look and texture of the original materials. Atlas Concorde marble-effect, concrete-effect, and stone-effect porcelain tiles reproduce the look of the original surface with extraordinary realism in every detail.

L'utilizzo delle grandi lastre crea un effetto visivo di continuità, contribuendo ad aumentare la spazialità degli ambienti, valorizzando la grafica e la trama del materiale a cui si ispirano. Il gres porcellanato Atlas Concorde effetto marmo, effetto cemento, effetto pietra riproduce con straordinaria realistica in ogni dettaglio la superficie di riferimento.

L'utilisation des grandes dalles crée un effet de continuité visuelle qui contribue à élargir la perspective des pièces, en valorisant le graphisme et la trame du matériau dont elles s'inspirent. Le grès cérame Atlas Concorde aspect marbre, béton ou pierre, reproduit chaque détail du matériau de référence avec un réalisme extraordinaire.

Große Platten erzeugen einen optisch durchgängigen Eindruck und lassen den Raum größer wirken. So kommen Grafik und Struktur des Materials, an dem sie inspiriert sind, noch besser zur Geltung. Das Feinsteinzeug von Atlas Concorde mit Marmoroptik, Metalloptik, Zementoptik und Natursteinoptik gibt jedes Detail der als Vorbild dienenden Oberfläche mit außerordentlichem Realismus wieder.

El uso de las grandes placas crea un efecto visual de continuidad, contribuyendo a aumentar la percepción de espacios más amplios, realzando la gráfica y el diseño del material en el que se inspiran. El gres porcelánico Atlas Concorde efecto mármol, efecto hormigón y efecto piedra reproducen con extraordinario realismo cada detalle de la superficie de referencia.

Большие форматы создают эффект покрытий и визуально расширяют пространства, максимально раскрывая потенциал рисунка поверхности. Керамогранит под мрамор, цемент, камень от Atlas Concorde с изумительным реализмом воспроизводит каждую деталь исходного материала.

Solutions for architectural and design needs

The large sizes offer an aesthetic and compositional potential capable of interpreting the essence of each project: from wall and floor coverings to furnishing elements (bathroom or kitchen counters, worktops, sinks, and tables) for residential and commercial environments, with both indoor and outdoor applications.

I grandi formati offrono potenzialità estetiche e compositive capaci di interpretare l'essenza di ogni progetto: dal rivestimento di pareti e pavimenti agli elementi di arredo (top per il bagno o la cucina, piani lavoro, lavabi e tavoli) per ambienti residenziali e commerciali, con applicazioni sia in interno che in esterno.

Les grands formats offrent des potentialités esthétiques et de composition capables d'interpréter l'essence de chaque projet: du revêtement pour sols et murs jusqu'aux éléments de décoration (plans de cuisine ou de salle de bains, plans de travail, tables et lavabos) pour les espaces résidentiels et commerciaux, avec des applications soit en intérieur qu'en extérieur.

Großformate besitzen hinsichtlich Optik und Kompositionen ein Potenzial, mit dem sich jedes Projekt perfekt interpretieren lässt: Vom Wand- oder Bodenbelag bis zu den Einrichtungs-elementen (Deckplatten für Bad oder Küche, Arbeitsplatten, Waschbecken und Tische). In Wohn- oder Gewerberäumen, innen wie außen.

Los grandes formatos ofrecen un potencial estético y compositivo capaz de interpretar la esencia de cada proyecto: desde revestimientos de paredes y pavimentos hasta elementos de mobiliario (encimeras de baño o cocina, lavabos y mesas) para ambientes residenciales y comerciales, con aplicaciones tanto en interiores como en exteriores.

Большие форматы обладают огромным эстетическим и композиционным потенциалом: ими можно покрывать не только полы и стены, но и множество предметов обстановки (кухонные столешницы и фартуки, умывальники в ванных комнатах, столы и т.д.); их можно укладывать в жилых и коммерческих пространствах, внутри помещений и на улице.

Floor

Both 6 mm thick and 9 mm thick formats can be used on the floor in all residential and commercial areas that are not subject to exceptional loads. For floors subjected to heavy loads or the transit of hard-wheeled trolleys, the use of 9 mm thick versions is recommended. The 20 mm thickness in the Outdoor finishes is specifically designed for outdoor paths and driveways where excellent non-slip performance and high load resistance are required.

A pavimento si possono utilizzare sia i formati a spessore 6 mm che quelli a spessore 9 mm in tutti gli ambiti residenziali e commerciali che non prevedono carichi eccezionali; per i pavimenti su cui si prevede il passaggio di carichi puntuali pesanti o il transito di carrelli a ruote dure, è consigliato l'utilizzo di formati a spessore 9 mm. Lo spessore 20 mm, nelle finiture Outdoor, è specificatamente indicato per pavimentazioni all'aperto o vialetti carrabili dove sono richieste ottime prestazioni antiscivolo e una elevata resistenza al carico.

Les formats de 6 mm et de 9 mm d'épaisseur peuvent être utilisés pour le sol dans tous les espaces résidentiels et commerciaux qui ne prévoient pas de charges exceptionnelles; pour les sols qui prévoient le passage de lourdes charges ponctuelles ou le passage de chariots à roues dures, il est conseillé d'utiliser les formats à 9 mm d'épaisseur. L'épaisseur de 20 mm, pour les finitions Outdoor, est spécifiquement indiquée pour le dallage extérieur et les voies de passage de voiture qui exigent d'excellentes prestations antidérapantes et une résistance élevée aux charges.

Am Boden können sowohl die 6 als auch die 9 mm starken Formate verlegt werden, in allen Wohn- und Gewerberäumen, die keinen übermäßigen Belastungen ausgesetzt sind. Für Böden, die mit konzentrierten Lasten schwer belastet oder mit Hartgummirädern bereiften Wagen befahren werden, sollten 9 mm starke Formate verwendet werden. Die Stärke 20 mm eignet sich in den Outdoor-Oberflächenversionen ganz besonders für Außenböden oder Fahrwege, die eine ausgezeichnete Rutschfestigkeit und Belastbarkeit erfordern.

En pavimento se pueden utilizar tanto los formatos de 6 como de 9 mm de espesor en todos los ámbitos residenciales y comerciales que no suponen cargas excepcionales; para aquellos pavimentos que en cambio sí prevén el paso de cargas puntuales pesadas o el tránsito de carros con ruedas duras, se recomienda el uso de formatos de 9 mm de espesor. El espesor de 20mm, en los acabados Outdoor, está específicamente indicado para pavimentos exteriores o caminos donde se requiere un excelente rendimiento antideslizante y una gran resistencia a la carga.

Для полов подходят форматы толщиной 6 мм и 9 мм, которые можно укладывать в жилых и коммерческих пространствах, где полы не будут подвергаться чрезмерной эксплуатационной нагрузке. В местах, где предвидятся сосредоточенные нагрузки или перемещение тележек на жестких колесах, рекомендуется использовать форматы толщиной 9 мм. Толщина 20 мм с поверхностной отделкой Outdoor предназначена специально для уличных полов или подъездных путей, где от покрытий требуются отличное сопротивление скольжению и высокая стойкость к весовым нагрузкам.

Wall

For walls, height is the key element when choosing the format. Large 278 cm (109 1/2") slabs make it possible to cover most walls from floor to ceiling, reducing waste and the presence of horizontal joints. For higher walls, we recommend the 160x320 cm (63"x126") rectified format.

Per il rivestimento a parete l'altezza è l'elemento chiave per la scelta del formato. Le grandi lastre da 278 cm consentono di coprire l'altezza della maggior parte dei soffitti, riducendo lo sfrido e la presenza delle fughe orizzontali. Per pareti più alte, si consiglia il formato 160x320 cm rettificato.

Pour le mur, la hauteur est l'élément-clé pour le choix du format à appliquer. Les grandes dalles de 278 cm permettent de couvrir la hauteur de la plupart des plafonds, en réduisant les rebuts de découpe et la présence de joints horizontaux. Pour des murs plus hauts, nous conseillons le format 160x320 cm rectifié.

Bei Wandbelägen hängt die Wahl des Formats vor allem von der Höhe ab. Die großen, 278 cm hohen Platten erlauben in den meisten Fällen die raumhohe Verlegung bis zur Decke, wobei kaum Schnittabfälle oder waagerechte Fugen entstehen. Für höhere Wände empfiehlt sich das rektifizierte Format 160x320 cm.

Para el revestimiento de pared, la altura es el elemento clave en la elección del formato. Las grandes placas de 278 cm permiten cubrir la altura de la mayoría de los techos, reduciendo desperdicios y la presencia de juntas horizontales. Para paredes más altas, recomendamos el formato rectificado de 160x320 cm.

Выбор настенного формата зависит от высоты потолка. Большие плиты длиной 278 см позволяют достичь высоты большинства потолков без горизонтальных швов и с минимальным количеством отходов от резки. Для более высоких стен рекомендуется ректифицированный формат 160x320 см.

The number of the graphic - G1, G2, G3, etc - is printed on the side and indicated with an adhesive label placed on the slab. Marble Look Timeless beauty

The timeless elegance of marble is expressed in the large porcelain tile surfaces, with authentic and precious details that enhance its refined, artistic value. The large slabs are ideal for designing luxurious high-impact environments that impress all who enter them.

L'eleganza senza tempo del marmo si esprime nelle grandi superfici in gres porcellanato, con dettagli autentici e preziosi che ne esaltano la valenza raffinata e artistica. Le grandi lastre sono ideali per la progettazione di ambienti luxury e di grande impatto, che vogliono stupire.

L'élégance intemporelle du marbre s'exprime à travers les grands formats en grès cérame, dont les détails authentiques et précieux exaltent leur valeur raffinée et artistique. Les grandes plaques sont l'idéal pour la conception d'espaces luxury de grand impact, capables de séduire le regard.

Die zeitlose Eleganz des Marmors kommt in den großen Feinsteinzeugflächen perfekt zum Ausdruck, wobei authentisch und edel wirkende Details den ästhetischen und künstlerischen Wert noch steigern. Große Platten sind ideal für die Planung von luxuriösen und effektvollen Räumen, die beeindrucken wollen.

La elegancia atemporal del mármol se expresa en las grandes superficies de gres porcelánico, con detalles auténticos y preciosos que realzan su valor refinado y artístico. Las grandes placas son ideales para el diseño de ambientes lujosos y de alto impacto, con la intención de sorprender.

Вневременная элегантность мрамора ярко сияет на больших керамогранитных плитках: драгоценные детали рисунка приятно усиливают изысканную художественность материала. Большой формат идеален для создания элитных интерьеров, которые будут изумлять своей роскошью.

Concrete Look Urban Characters

Contemporary style, elegance and functionality in a rigorous, striking material. Concrete-effect porcelain slabs in dense, deep shades become discreet protagonists of the space, giving rooms a strong metropolitan appeal.

Stile contemporaneo, eleganza e funzionalità in un materiale rigoroso e di grande impatto. Le lastre in gres porcellanato effetto cemento, dalle nuance dense e profonde, sono protagoniste discrete dello spazio, caratterizzando gli ambienti con un forte appeal metropolitano.

Style contemporain, élégance et fonctionnalité unis dans un matériau rigoureux et de grand impact. Les plaques en grès cérame effet ciment, aux nuances denses et profondes, sont des protagonistes discrets qui confèrent un fort appeal urbain à l'espace.

Der zeitgemäße Stil, die Eleganz und Funktionalität eines nüchternen und effektvollen Materials. Die großen Platten aus Feinsteinzeug mit Zementoptik bilden mit ihren satten und intensiven Nuancen eine interessante und dennoch unaufdringliche Kulisse im Raum und prägen das Ambiente mit einer markant urbanen Note.

Estilo contemporáneo, elegancia y funcionalidad en un material riguroso y de fuerte impacto. Las placas de gres porcelánico con efecto cemento, en tonos densos y profundos, son discretos protagonistas del espacio, caracterizando los ambientes con un fuerte atractivo metropolitano.

Современный стиль, элегантность и функциональность – в строгом и эффектном материале. Керамогранитные плиты под цемент благодаря своим густым и глубоким тонам являются неброским декором пространств, но вместе с тем придают им яркую урбанистичность.

Stone Look Natural appeal

The large surfaces of stone-effect porcelain tiles bring out the most surprising details of this material, decorating spaces with natural simplicity. A neo-primitive look with an extraordinary creative potential, which in the large format acquires even more earthy, expressive strength.

Le ampie campiture del gres porcellanato effetto pietra valorizzano i dettagli più sorprendenti di questa materia, per arredare gli spazi con naturale essenzialità. Un look neoprimitivo e dallo straordinario potenziale creativo, che nel grande formato acquista ancora più forza materica ed espressiva.

Les grandes surfaces du grès cérame effet pierre valorisent les détails les plus surprenants du matériau et décoorent les espaces avec un minimalisme naturel. Un look néo-primitif, avec un extraordinaire potentiel créatif, qui acquiert encore plus de force d'expression grâce au grand format.

Große Flächen aus Feinsteinzeug mit Natursteinoptik bringen die erstaunlichsten Details dieses Materials zur Geltung und lassen schlicht-natürlich wirkende Räume entstehen. Ein neoprimitiver Look von außerordentlich kreativem Potenzial, der im Großformat noch mehr stoffliche Stärke und Ausdruckskraft gewinnt.

Las grandes superficies de gres porcelánico con efecto piedra realzan los detalles más sorprendentes de esta materia, dotando a los espacios con una esencialidad natural. Un aspecto neoprimitivo con un extraordinario potencial creativo, que en gran formato adquiere aún más fuerza material y expresiva.

Большие керамогранитные поверхности, в мельчайших деталях воссоздающие фактуру природного камня, эффектно украшают пространства своей натуральной лаконичностью. Обладающий огромным креативным потенциалом материал благодаря оригинальной ноте неопрimitивизма и крупному формату приобретает еще большую силу и выразительность.

Metal Look Industrial spirit

Bright, iridescent reflections convey the allure of natural oxidation of an industrial material with architectural appeal. The large metal-effect porcelain slabs interpret an industrial-contemporary style, ideal for settings that convey an earthy strength and the energy of light.

Les reflets lumineux et miroitants traduisent le charme de l'oxydation naturelle d'un matériau industriel de grand attrait architectural. Les grandes plaques en grès cérame effet métal interprètent le style industriel-contemporain, idéal dans les contextes qui recherchent la force de la matière et l'énergie de la lumière.

Reflejos luminosos e iridiscentes relatan cuánto sea fascinante la oxidación natural de un material industrial con encanto arquitectónico. Las grandes placas de gres porcelánico con efecto metálico interpretan el estilo industrial-contemporáneo, ideal para contextos que buscan la fuerza de la materia y la energía de la luz.

Riflessi luminosi e cangianti raccontano il fascino dell'ossidazione naturale di un materiale industriale dal fascino architettonico. Le grandi lastre in gres porcellanato effetto metallo interpretano lo stile industrial-contemporaneo, ideale per contesti che ricercano la forza della materia e l'energia della luce.

Strahlende und changierende Reflexe geben dem industriellen Material den Zauber der natürlichen Oxidation wieder, welches mit besonderer architektonischer Faszination besticht. Die großen Platten aus Feinsteinzeug mit Metalloptik interpretieren einen zeitgenössisch-industriellen Stil. Er passt in jeden Kontext, in dem die Kraft der Materie und die Energie des Lichts zum Ausdruck gebracht werden sollen.

Мягкий блеск и переливы отражают естественный процесс окисления ценного для архитектуры промышленного материала. Большие керамогранитные плиты под металл оригинально интерпретируют современный индустриальный стиль, идеально вписываясь в пространства, дизайн которых требует стойких фактурных поверхностей и энергии света.

* Polished and silk finishes are recommended for low-stress residential or commercial floors where anti-slip performance is not required. The surface's shine and superior ease of cleaning are the result of in-depth studies and extensive technical research aimed at ensuring its durability over time. If the product is in direct contact with the outside, use moisture and dirt absorption devices to prevent scratches. Under no circumstances does Atlas Concorde accept responsibility for any use of the product other than as recommended above. - Le finiture lappata e silk sono indicate per pavimenti residenziali o commerciali poco sollecitati, laddove non siano richieste prestazioni antiscivolo. La lucentezza e l'elevata facilità di pulizia della superficie sono frutto di studi approfonditi e accurate ricerche tecniche volte a garantirne la persistenza nel tempo. Se il prodotto è a diretto contatto con l'esterno, prevedere dei dispositivi di assorbimento dell'umidità e dello sporco per prevenire la formazione di graffi. Atlas Concorde non si assume in nessun caso la responsabilità per un uso del prodotto diverso da quanto consigliato sopra. - Les finitions rodée et soyeuse conviennent aux sols résidentiels ou commerciaux à faibles contraintes, où la performance antidérapante n'est pas requise.
