INTRODUCING LARGE FORMATS COLLECTION

Portobello America features its Large Format Collection - a trend that is more and more present in the international design and architecture world.

Large formats have many advantages because of their variety of textures, finishes, designs and formats that resemble natural products. This esthetic gives the effect of continuity for different areas and can be used as floor and wall tiles, kitchen countertops and much more.

In addition, it has the advantage of being sustainable because the manufacturing process has minimal impact on our environment.
