Install the Fixture

- 1** Screw the half ball to the stem which will be on top.
- 2** Feed the fixture wires through the thick stem and screw it onto the socket assembly.
- 3** Feed the fixture wires through the stem assembly, then screw the stem assembly onto the thick stem.
- 4** Feed the fixture wires through the collar nut, canopy, and the half ball assembly, then screw the half ball assembly onto the stem assembly.
- 5** Align and secure the mounting plate to the junction box, then slide the half ball assembly onto the mounting plate.
- 6** Connect the fixture to a suitable ground in accordance to local electrical codes.
- 7** Connect the white fixture wire (square and/or rigid) to the neutral power line wire with a wire nut.
- 8** Connect the black fixture wire (round and/or smooth) to the hot power line wire with a wire nut.
- 9** Neatly place all the wires into the junction box, place the canopy onto the mounting plate, and secure it in place by screwing the collar nut tightly onto the screw collar
- 10** Screw the lamps into the sockets. Refer to the label on the socket for Max Wattage Information.
- 11** Install the shade by placing it over the lamp. Repeat for remaining shades.
