

ASSEMBLY INSTRUCTIONS

OIKOS Lamp

Code 1410L**

This product is just for interior lighting.

Check cable, transformer and any electrical part in the lamp regularly.

In case of cable damage, please contact only a qualified person.

Do not dip the lamp into water.

Before assembling the lamp, do not plug the electricity supply in.

1. Insert the bulb into the lampholder
2. Plug the lamp into the socket

In compliance with the rules EN60598-1 and EN60598-2-4 and low voltage directive 2006/95/EC.

Fragile glass. It might injure. The utmost caution is recommended. In case of damage, please use protective gloves.

Keep away from children. Not suitable for food use.

In all cases a mixture of glass is used: glass features and processing techniques make glass inert material.

Instructions are general. Therefore, shapes of electrical components and/or glass lamp might differ from illustrations.
