

# DIANA WALL

## DIANA | WALL

Diana is a vintage industrial wall lamp, inspired by the classic designs of the mid-century modern age. A true industrial design icon, Diana has a mount and swing arm handmade in brass, with a lamp shade made in aluminum. The counterweight we find at the extremity is made out of steel for a more secure grip. While the mount and body boast a stunning nickel plated finish, the shade and counterweight are lacquered a glossy red, with the inside of the lamp being matte white for a smoother cast of light.
