

adorne Collection  
adorne 20A Wave® Switch, White  
Part No. ASWV2032W2

Perfect for turning the lights on or off when your hands are full or messy, especially in entryways or next to the kitchen sink. The Wave Switch features innovative hands-free technology that allows you to control lights with a wave of your hand, for a germ-and-worry free option that also adds contemporary style to any space. Use on its own to control a light or fixture from a single location, or pair with a second switch or dimmer to control a single light source from two locations. Made exclusively for use with screwless Wall Plates from the adorne® Collection, sold separately.

## Features & Benefits

Features innovative touchless control for a convenient, germ-free way to turn on lights...all it takes is a simple wave

Made for use in both residential and commercial applications; features durable construction to withstand rigorous cleaning practices

Adjust the internal sensor to respond to movement from 1"-6" from the switch face to fit your space and needs

Complete the look with a stunning, screwless adorne® Wall Plate, not included. Available in a range of contemporary colors and finishes. Coordinate with other designer switches & outlets

Installs easily in 15 minutes or less, fitting into an existing electrical box. Usable in both single-pole and 3-way applications

Includes a rating of up to 3/4 HP for adding touchless control to small motors

More color options available to fit any style, including finishes to match current hardware and lighting trends
