

Amelie _Table

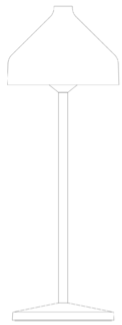

Amelie is a collection of portable, rechargeable battery-operated lamps, designed by Sara Moroni, that includes the following models: table, floor, wall and suspension lamps, and lamp with peg.

The table lamp is supplied with a silicone hook and a cap, so that they can be transformed into a suspension lamp.

On the head, a touch sensor allows you to switch it on, adjust the luminous intensity and select the color temperature of the light to 2200 K, 2700 K or 3000 K. With the high IP rating, the lamps can also be used outdoors. The lamps come with a contact charging base; battery charger not included.
