KOMOREBI

Designed by Magnus Nero & Ingemar Jönsson

Embrace the small things in life with the newest member of the UIMAGE lighting family: Komorebi.

Made from wood and textile, the Komorebi lampshade celebrates contrasts and how these often come together and create spectacular things.

The Komorebi series is designed by the Swedish design duo Magnus Nero and Ingemar Jönsson of Studio Jooy. Nero and Jönsson draw inspiration from Scandinavian nature, and elements like wood are often incorporated in their designs to bring you closer to nature.

Komorebi is available in three different shapes and sizes.
