Conveniently power mobile devices quickly and reliably outdoors without the need for bulky AC adapters.

WRR26USBAC6
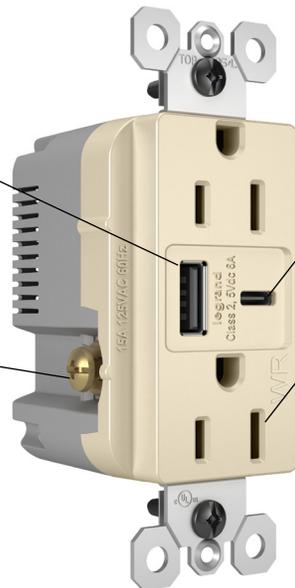

radiant® Weather-Resistant Duplex Receptacles with USB charging capabilities are UL listed to UL498 for weather resistance and comply with section 406.9 of the National Electrical Code. Charge your smart-phones, tablets, and laptops up to 40% faster than 3-5A USB chargers with an Industry-leading charging capacity of 6.0A, shared between both ports. Enjoy the added safety of tamper-resistant receptacles that meet NEC® requirements for tamper-resistance. Protects children: patented shutter system helps prevent improper insertion of foreign objects – now with black "invisi-shutters" for an invisible effect. The external brass back-wire pressure-plate and posted side-wire terminal screws make installation fast and easy.

Features & Benefits

Combination AC USB receptacles include two 5-volt DC USB ports that work with USB 2.0 & 3.0 compatible devices.

Posted side-wire terminal screws and external back-wire pressure plates for faster termination.

Available with (1) USB Type-A & (1) USB Type-C port or (2) USB Type-C ports to charge the latest mobile devices.

Type-A and Type-C ports carry minimum rating of 10,000 insertions.

AC USB receptacles are tamper-resistant to meet NEC. Patented shutter system — now with black "invisi-shutters" for an invisible effect preferred by end users — helps prevent improper insertion of foreign objects.

Complies with Section 406.9 of the National Electrical Code for weather resistance.*

WRR26USBACLA

- AC USB receptacles available in 15A, 125V.
- **Back and side wire termination options** accommodate #14 AWG – #10 AWG stranded and solid copper wire.
- **Multiple color options available.**

*Must be installed with a weatherproof cover. It is recommended that these devices are installed in a wall box measuring at least 3" x 2" x 2-1/2" to ensure proper NEC Article 314 box fill requirements. For retrofit applications a Weatherproof extension ring may be required on boxes with less depth than 2-1/2".

3rd Party Compliance

 cULus listed, UL listed. Complies with test requirements UL 498, UL 1310 CSA C22.2 No. 42, CSA c22.2 No. 223

Technical Information

Performance

Electrical

|	
Dielectric Withstand Voltage	Withstands 1500V minimum
Maximum Working Voltage	125V
Current Interrupting	Certified for current interrupting at full-rated current (receptacle only)
Maximum Temperature Rise	30°C after 50 cycles at full-rated current after 50 cycles of overload are 150% of rated current with direct current
No-Load Power Draw	10.7 mW Meets Department of Energy (DoE) Level VI requirement
FCC Part 15	Class B

Mechanical

Terminal Accommodation	Back and side wire termination options accommodate #14 AWG - #10 AWG stranded and solid copper wire.
Product Identification	Ratings are a permanent part of the device

Environmental

Flammability	UL94 V2 (for device cover) 5V (for device body and frame)
Operating Temperature	Maximum continuous +60°C, minimum -40°C without impact
RoHS	Compliant

Materials

Face	UV protected Polycarbonate
Back Body	Nylon
Line Contacts	CDA 260 Brass
Mounting Strap	G90 Galvanized plated steel
Terminal Screws	Tri-Drive Zinc-Plated Steel with Either Clear or Black Chromate for Color Identification
Ground Screw	Tri-Drive Steel with Green Chromate
Mounting Screws	Tri-Drive Steel
