Gross	17,6 Lb

WARNINGS

WOOD VENEER: Due to the natural nature of the material sometimes one may note slight undulations in the wood veneer. This is a natural reaction to humidity or different climatic conditions and should go away with use. Since wood is a natural material, a gradual change in tone may occur over time. Furthermore, if the lamps have been purchased at different times, there will be differences in colour and tone, particularly in light coloured veneers. Luziferlamps S.L. will not be held responsible for this.

ASSEMBLY INSTRUCTIONS

1

ON/OFF: Quick pulse (less than 1 sec.)
Dimming MIN/MAX: Continuous pressure.
Dimming is memorized on last setting.

GENERAL CARE INSTRUCTIONS

Use and care of your lamp.

You have just purchased an original handmade product by LZf. Your lamp is made out of FSC® certified natural wood veneer treated with our patented finish, Timberlite®.

This treatment both protects and safeguards the wood veneer against breakages.

Depending on the type of lamp use a feather duster, soft cleaning cloth or damp cloth for cleaning. On our more delicate shades, like those made from wood strips, a feather duster or an air blower is preferable. In our more solid shades a damp cloth may be used.

Clean only the flat surface of the veneer with the cloth, and please avoid any moisture contact along the edge of the veneer.

Acrylic Diffusers

The acrylic diffusers on your lamp can be cleaned with a regular window cleaning spray and a soft cloth. Do not use solvents of any kind.

Integrated LED

All LEDs are included in your lamp. Never touch the LED surface with your bare hands as this may reduce the life of your LED.

Precautions

Luminaire for indoor use only.

Avoid direct sunlight, strong indirect sunlight and moisture on your lamp. Unplug the lamp before cleaning or changing the light bulb. Servicing or manipulation of the electrical installation should only be performed by qualified electrical personnel or by the LZf service department.
