

Deluxe 50 Pendant
Archirivolto, 2006

The Deluxe Pendant, designed by Archirivolto, is a versatile and bold lighting collection featuring a geometrically-patterned, cloud-shaped handblown glass diffuser. Its handblown satin white or matte black diffuser is made of multiple layers of glass to create a rich look. This traditional Murano handblown glass technique is called *incamiciato* (Italian for “jacketed” or “layered”), which requires multiple layers of glass during the blowing process to create perfect diffusion.

Diffuser Options: Matte Black, Satin White

Structure Options: Chrome

Size Options: 35cm, 50cm

Dimensions:

Width: 19.7in/50cm
