

Deluxe 50 Ceiling Lamp

Archirivolto, 2006

The Deluxe Ceiling Lamp, designed by Archirivolto, is a versatile and bold lighting collection featuring a geometrically-patterned, cloud-shaped handblown glass diffuser. Its handblown satin white or matte black diffuser is made of multiple layers of glass to create a rich look. This traditional Murano handblown glass technique is called *incamiciato* (Italian for "jacketed" or "layered"), which requires multiple layers of glass during the blowing process to create perfect diffusion.
