

Stacking D Floor Lamp

Rockwell Group, 2007

Stacking was designed by Rockwell Group in 2007 using the idea of modular, individually handblown glass cylinders in distinct combinations of colors and sizes. The result is four sets of floor lamps (Stacking A, Stacking B, Stacking C and Stacking D) that each have their own distinct personality. The modules have different opacities and sizes that bend the light in unique ways in your space, creating your ideal lighting situation. As each glass module stacks and overlaps on each other, more multilayer lighting effects are produced.

Diffuser Options: White/Gold/Transparent Smoke/White

Structure Options: Gold

Dimensions:

Width: 9.1in/23cm
Depth: 9.1in/23cm
Height: 64.2in/163cm

Weights

Item: 69.7lbs
Gross: 71lbs
Parcels: 7
Volume: 17.7

GU10 Socket

Recommended Bulb: 4x GU10 7W
Retrofit LED Bulb or 4x GU10 35W
Incandescent or Halogen Bulb

Voltage: 120 V

SKUs: 0004101

Made in Italy
