

Collection La Vie En Rose 2009

TECHNICAL DATA SHEET

The La Vie en Rose series consists of several items that can be combined into an artistic installation.

The following items can be selected:

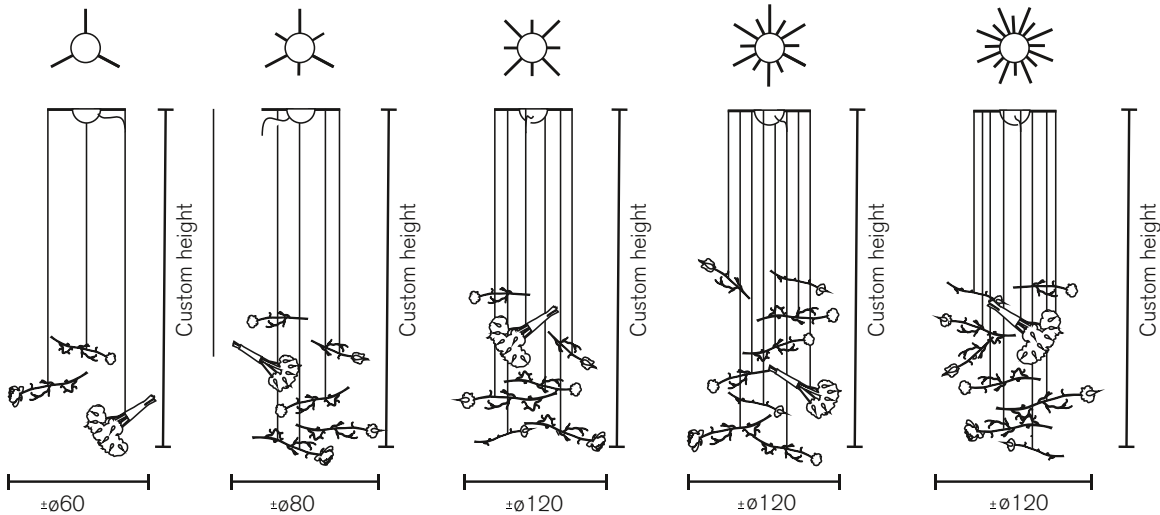

- Bouquet
- Single rose with light
- Single decorative rose (without light)
- Ceiling cover

The Ø of the ceiling covers is based on the Ø of the connection points of the single roses. Because the single roses might turn, an additional 80cm must be taken into account for the actual total Ø size of the object. In case of a combination of single roses with light and a bouquet, per bouquet one tube of the ceiling cover needs to be kept free in order to connect the bouquet wire.

The bouquet itself has to be connected to the ceiling. The price of the rose object will be the sum of the prices of the single parts of the object.
