

PROPELLER WS53224

WALL

PROJECT

DESCRIPTION

The hand-polished steel wall sconce is held to the wall by a small square plate. A simple twist in the middle of the metal bar and the square mounting plate are the only two elements this piece needs to add a seamlessly elegant touch to any indoor wall. Hang this 24 inch long sconce vertically or horizontally to let the LEDs meet your lighting design needs. Three finishes available as well as custom options.
