technical details

FOSCARINI

A day trip to the country. Chirping cicadas. A picnic – a chequered tablecloth on the grass. This is the festive, relaxed atmosphere summoned up by Cri Cri: a wireless lamp with an internal rechargeable battery, to hang up or set down anywhere – outdoors or indoors.

## STUDIO NATURAL

As industrial and graphic designers they have built up wide experience, spacing from exhibit to product design through graphic and web communication.

These different spheres share a common root, which is design as an application of a creative process. Cri Cri is the first lamp developed with Foscarini.
