

## 825/US/BI cyborg

design karim rashid, 2015

The Cyborg Table lamp with its three-legged body wound downwards resembles a mysterious creature from the future.

The futurist design of the tripod table lamp by Martinelli Luce is reminiscent of a stylized octopus. It is an organic shape that is unmistakably signed by Karim Rashid.

The cast aluminum structure is available in pastel colors: **white, light blue, light lime green, light grey** and also **natural aluminum** finish.

The diffuser is white opal polycarbonate .

The integral LED light source is switched on and off with a touch sensor that is integrated directly into the luminaire.
