## Dear Beer Tester,

with this beer tasting set we give you the opportunity to dive into the world of German beers. A journey through the different beer specialties of German states and a special tasting experience await you.

This accompanying booklet provides interesting insights, information and tips for a successful beer tasting.

With this booklet, we give you the opportunity to record your personal tasting notes in writing.

Your beer box was filled and packaged by hand by people with disabilities in Germany. In this way, we help disadvantaged people to be integrated more easily into the world of work and thus set an example against discrimination.

We hope you enjoy tasting the different types of beer and discovering new delicacies!

Cheers

the Boxiland Team

# INTERESTING FACTS ABOUT BEER

## WHO INVENTED IT?

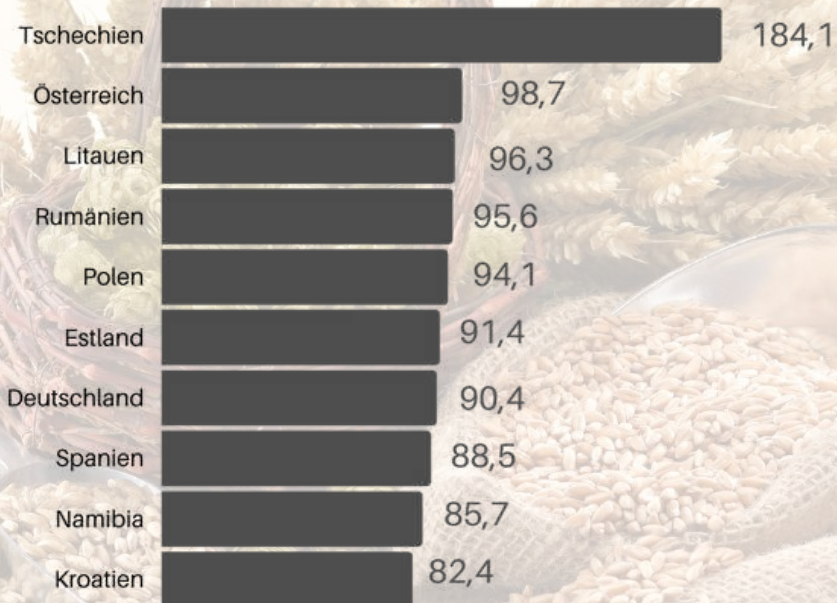

Beer was invented by the ancient Egyptians. They fermented a half-baked bread with water.

## THE STRONGEST BEER IN THE WORLD

The strongest beer in the world is currently brewed by the Scots. The beer from John McKenzie and Lewis Shand bears the name "Snake Venom" and has a proud 67.5% alcohol content.

## WHO DRINKS HOW MUCH?

Per capita consumption in 2021 in liters \*

QUELLE: STATISTA

# DIFFERENT BEER STYLES

## HOW MANY BEER STYLES ARE THERE IN THE WORLD?

It is estimated that there are more than 150 beer styles worldwide. In Germany, the best known are:

### PILSNER

Characteristics: Golden yellow, clear, slender  
Alcohol: ~ 4-5%

### HELLES/MÄRZEN

Properties: Less bitter due to more grain and less hops  
Alcohol: ~ 4-5%

### OKTOBERFEST BEER

Characteristics: stronger lager, but is more drinkable, Alcohol: ~ 5.8-6.3%

### WHEAT

Properties: Mostly sweetish due to the yeast  
Alcohol: ~ 4-5%

### CELLAR BEER

Characteristics: drinkable, little carbonic acid and many turbidities  
Alcohol: ~ 4-6%

### EXPORT

Characteristics: Tart, bitter and brewed with more original wort.  
Alcohol: ~ 5-6%

### SMOKE BEER

Eigenschaften: mit Rauchmalz gebraut, erinnert an geräucherten Speck  
Alkohol: ~ 4-6%

### BLACK BEER

Properties: malty sweet, is brewed with roasted malts  
Alcohol: ~ 4-5%

# BEER TIPS

## DIRECT PREPARATION

### OPTIMAL TEMPERATURE

DON'T COOL YOUR BEER TOO MUCH, BECAUSE BELOW A TEMPERATURE OF 6°C THE FLAVORS CAN'T FULLY DEVELOP. IN GENERAL, THE HEAVIER AND STRONGER A BEER, THE WARMER IT CAN BE.

### THE RIGHT GLASS

THE RULE OF THUMB IS THAT THE SLIMMER THE BEER, THE SLIMMER THE GLASS. SLIMMER THE GLASS. STRONG BEERS, FOR EXAMPLE, CALL FOR A WIDER GLASS. RINSE THE GLASS WITH COLD WATER BEFORE TASTING.

## PROCEDURE

### LOOK AT THE LABEL

WHAT IMPRESSION DO THE BOTTLE SHAPE, COLOR, AND LABEL LEAVE? THE EYE DRINKS ALONG.

### COLOR AND FOAM

WHAT CAN BE DETERMINED? WHAT IS THE COLOR OF THE BEER?

WHAT IS THE COLOR AND STABILITY OF THE FOAM? COLOR AND CLARITY MAKE A BEER ATTRACTIVE.

### AROMA

WHAT ARRIVES AT THE NOSE? WHAT AROMAS DOES THE BEER DELIVER? DOES THE SCENT CHANGE WITH PROLONGED SMELLING?

# BEER TIPS

## TASTE IN THE MOUTH

THE FIRST IMPRESSION ON THE TONGUE AND PALATE? DOES THE SWEETNESS, ACIDITY OR BITTERNESS PREDOMINATE? HOW DOES THE BEER START IN THE MOUTH? WHAT IS THE CONSISTENCY, RATHER WATERY, FATTENING, FULL-BODIED, SLENDER OR BROAD? WHAT IS THE FINISH OF THE BEER ON THE PALATE? EACH BEER STYLE HAS ITS OWN DEFINED TASTE. CAN YOU TASTE IT?

IN THE AFTERTASTE, THE FLAVOR SHOULD SOLIDIFY. IF WE LOOK FORWARD TO THE NEXT SIP, THEN WE HAVE A GOOD BEER.

# EINBECKER

## INFORMATION

Region	Northeim
Brewery:	Brewery Einbeck
Drinking temperature:	7-8°C
Beer style:	Pilsner
Alcohol content:	4,8%
Ingredients:	Brewing water, barley malt, hops
Ideal with:	Rolls, ham platter and bratwurst
