

Rubber Extrusions and Mouldings

Eighth Edition

About us

COH Baines was established in 1939, in Liverpool, England by Charles Oswald Henry Baines and his wife, Emily. A family run business, Baines started life as a supplier of motor vehicle spare parts that contained rubber elements.

By the 1960s, Baines was supplying patented rubber weatherstrips to a multitude of industries including, coach and ship building, engineering, aerospace and the sciences. Significant growth ensued. To support these endeavours, a second site in Kent was opened to help service demand for products on a national basis, firstly in Tonbridge and then later, in Tunbridge Wells, where our Sales Office remains to this day.

Today

2020 saw the business establish a UK central warehousing hub back in Liverpool. With great road, rail and airport networks on our doorstep, we are supporting the Supply Chain of our domestic and international customers with a world-class service offering.

Maintaining our family values with a collective knowledge in excess of 70 years, the COH Baines Sales team are industry and application experts who have built long term relationships with our customers, providing product and service solutions to meet the demands of today in some of the most diverse industries. These include Aerospace, Automotive, Construction, Electronics, Engineering and Leisure Industries including, Caravans, Classic Cars and Marine.

We have been ISO certified for over 20 years and our commitment to Quality is demonstrated not only by the integrity of our products, but in how we operate our business; customer satisfaction is at the heart of everything we do.

Our core competencies are rubber, sponge and plastic extrusions, mouldings, matting and tubing.

With an extensive stock holding across more than 1,000 part numbers, alongside a comprehensive range of made to order parts; our products can be purchased 24/7 via our website www.coh-baines.co.uk

We can provide sample profiles prior to purchase to give you confidence you are sourcing exactly what you need. If you can't find exactly what you are looking for, our expert manufacturing team will be able to custom make a solution to your exact specification.

Classic Cars

In addition to the products featured in our Rubber Extrusions and Mouldings catalogue, COH Baines also manufacture a wide range of high quality aftermarket reproduction parts for a wide range of Classic Cars.

Supporting the best of British motoring, we offer a huge range of parts from Windscreen Rubbers, through to Gaskets, Door and Boot Seals, Badges and Trim.

See our website, www.coh-baines.co.uk for more details and to download a copy of our catalogues.

Extrusions

Pages 22 to 89 show a selection of Extrusions / Dies that we hold in stock or can make to order. These sections are shown to actual size wherever possible. Stocked items are indicated with a (*). Please note that our stocked item range is subject to change. All stocked items are available for immediate purchase from our online shop at www.coh-baines.co.uk

All non-stocked items are available to order but may be subject to minimum production quantities, manufacturing lead-times and a partial tooling contribution. If you have any requirements that are not listed, please contact us to discuss.

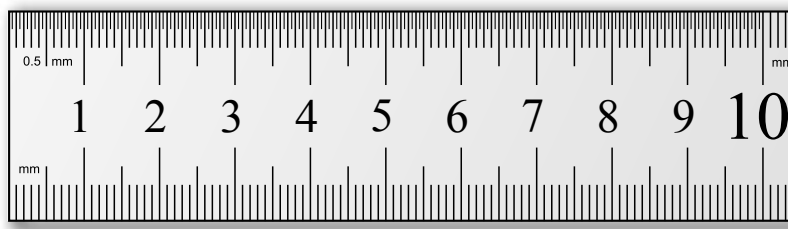

All profiles are manufactured to ISO 3302-1-2014 tolerances.

The full part number for each section is shown underneath each image. The majority of parts are made in a commercial grade of EPDM as standard, however, parts can be made in alternative compounds to suit specific application conditions; please contact us to discuss and we will be happy to recommend a suitable material for your application.

Important Note:

If printing the catalogue, you should adjust your printer settings to print 'Actual Size' to ensure the profiles are printed to correct scale.

If printed correctly, the line below should measure 10 cm.

Compound information

Ethylene Propylene Diene Monomer (EPDM)

This material has excellent weather and heat resistant properties and is widely used for glazing and refrigeration applications.

- + Excellent weather resistance.
- + Good heat resistance.
- + Good low temperature resistance.
- + Resistant to steam temperatures up to 120° C continuous and 150° C intermittently.
- + No migration stain of rigid UPVC materials.
- Affected by oils and fats

Neoprene® (Chloroprene)

Good resistance to heat and moderate chemicals and moderate resistance to oils. Has good characteristics to resist seawater, acids, fats, greases and many solvents. Neoprene has good ozone resistance and when a special additive is included has excellent flame retardant properties.

- + Excellent weather resistance.
- + Good mechanical properties.
- + Moderately resistant to oils and fats.
- + Flame resistant and can be flame retardant.
- Poor low temperature properties.

Nitrile (NBR)

Widely used in 'O' ring kits, resistant to petrol, fats, oil, greases and chemicals.

- + Excellent resistance to oils and fuels.
- + Good hot-oil resistance.
- + Good mechanical properties.
- + Good alkali and acid resistance.
- Moderate weather resistance.
- Moderate elasticity.
- Moderate low temperature properties.
- Moderate ozone resistance except for compounds with PVC blends.

Silicone

A material suitable for applications demanding good ozone resistance and performance at extreme temperatures from -80° C to +250° C.

- + Heat resistance up to +250° C.
- + Retains flexibility in extremely low temperatures.
- + Excellent weather resistance.
- + Excellent electrical resistivity.
- + Moderate oil and fat resistance (special grades only).
- + Moderate fuel resistance (special grades only).
- Poor mechanical properties.

Self-grip edge trim

Titanfast® speeds production and saves money by eliminating edge-finishing processes on a wide variety of quantity-produced items. It enhances appearance, covers exposed edges, provides protection and absorbs impact. It grips permanently on edges, flanges and rims of metal, glass fibre, plastic, wood and glass and eliminates the need for costly production processes such as deburring, touch up painting or any mechanical operation normally used for removing sharp edges.

Titanfast® can be applied by unskilled labour in one quick, simple hand operation. It requires no tacking, tools, glueing or riveting.

Tough, hard wearing it is built to last, its colour stays fast, it washes repeatedly. It is shrink resistant. Made of durable vinyl with a steel core. Will last just as long as the rest of your product.

Subject to edge condition, the codes illustrated will fit flanges from 0.793mm to 6.5mm thick. The single lip section S101 and 251 are designed to permit flush contact on the exposed side.

It is easiest to apply Titanfast® using the following method whether the material is of even thickness or not:

Using one hand, roll Titanfast® along the edge and at the same time press with the thumb of the other hand at the point where the Titanfast® meets the edge.

1. Titanfast® is easily cut with a pair of tin snips
2. Titanfast® will bend round a 19mm radius
3. It can be mitred round a tight angle corner simply by cutting out a V section with tin snips
4. The ends can be joined together by heating the touching ends with a hot piece of metal.

MATERIAL SPECIFICATION

- Vinyl Plastic
- 80 Durometer Hardness (Shore A 15 Second Reading)
- Tensile Strength 2,200 PSI min.
- Brittleness Temperature: -20° F
- Resistance to continuous heat: 150° F
- Segmented Metal Core
- Cold rolled steel with special temper for more spring and rigidity 0.457mm thick.

Expanded polyethylene strip

Self-Adhesive (P.E.)

* Stocked item

Closed cell and crossed linked foam plastic with a fine and uniform cell structure. For sealing indoors and outdoors, where proof against dust, water, moisture is needed. Resistant to oil, weathering most acids and alkalis. Operating temperature range -80° C to +80° C, requires only 15-20% compression to give airtight sealing. Sticks to any surface, rough or smooth, easy to apply, no tools required, no fiddling with drills or hammers. Dry and clean to use.

Building

Seals between plastic, g.r.p. and concrete panels – weatherproofing – grout sealing.

Electronics

Gasketing for sealing doors, cabinets etc.

Radio/TV

For protecting sensitive parts from damage.

Lamp gaskets (will not tarnish).

Engineering

Dust seals and sealing strips, sealing uneven surfaces.

Packaging

Cushioning, strips, pads. The closed cell structure has good cushioning characteristics.

Already being used for the above and now finding applications in Caravan and Boat building – Display – Medical equipment – Automotive fields.

Colour dark grey

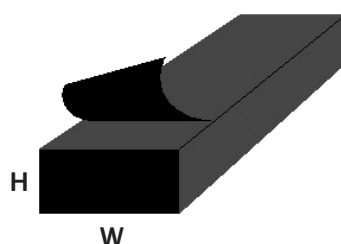

Can be supplied in white to special order as can non-stock sizes.

Standard length coils, 10 metres.

Stocked in the following sizes:

PATENT WEATHERSTRIPS

FOR COACHBUILDING, AIRCRAFT, SHIPBUILDING AND ENGINEERING AND EXPERIMENTAL ESTABLISHMENTS, SCIENTIFIC INSTRUMENT KITCHEN EQUIPMENT, Etc., Etc.

MANUFACTURED UNDER LICENCE TO PATENTS No. 529,527 No. 635,443

ALL SECTIONS ARE ILLUSTRATED IN ACTUAL SIZE — TOLERANCES

NON-STANDARD SECTIONS, MODIFICATIONS ETC.

Should a section for a special purpose be required we are always pleased to assist in designing and producing the same. Please give the following details:—

- (1) Thickness of Body Panel
- (2) Glass Size

- (3) Bend Radius Proposed
- (4) Sketch Showing Proposed

I.R.S. 634
 Metal Thickness .035" to .067"
 Glass Thickness $\frac{3}{8}$ "
 Minimum Bend Radius $2\frac{1}{2}$ "
 Letters Patent Nos. 529,527, 635,443 and 667,945

I.R.S. 770
 Metal Thickness .095" to .141"
 Glass Thickness $\frac{1}{2}$ "
 Minimum Bend Radius 4"
 Letters Patent Nos. 529,527, 635,443 and 667,945

I.R.S. 675
 Metal Thickness $\frac{3}{8}$ "
 Glass Thickness $\frac{3}{8}$ "
 Minimum Bend Radius 3"
 Letters Patent Nos. 529,527, 635,443 and 667,945

I.R.S. 771
 Metal Thickness .048" to .064"
 Glass Thickness $\frac{1}{8}$ " to $\frac{5}{8}$ "
 Minimum Bend Radius $2\frac{1}{2}$ "
 Letters Patent Nos. 529,527, 635,443 and 667,945

I.R.S. 736
 Metal Thickness .104" to .128"
 Glass Thickness $\frac{3}{8}$ "
 Minimum Bend Radius $2\frac{1}{2}$ "
 Letters Patent Nos. 529,527, 635,443 and 667,945

I.R.S. 772
 Metal Thickness .048" to .064"
 Glass Thickness $\frac{3}{8}$ "
 Minimum Bend Radius $1\frac{1}{2}$ "
 Letters Patent Nos. 529,527, 635,443 and 667,945

I.R.S. 747
 Metal Thickness .035" to .037"
 Glass Thickness $\frac{3}{8}$ " to $\frac{1}{2}$ "
 Minimum Bend Radius 4"
 Letters Patent Nos. 529,527, 635,443 and 667,945

I.R.S. 773
 Metal Thickness $\frac{3}{8}$ "
 Glass Thickness $\frac{3}{8}$ "
 Minimum Bend Radius $2\frac{1}{2}$ "
 Letters Patent Nos. 529,527, 635,443 and 667,945

I.R.S. 767
 Metal Thickness .048" to .064"
 Glass Thickness $\frac{1}{4}$ "
 Minimum Bend Radius $2\frac{1}{2}$ "
 Letters Patent Nos. 529,527, 635,443 and 667,945

I.R.S. 776
 Metal Thickness .031" to .046"
 Glass Thickness $\frac{3}{8}$ " to $\frac{1}{2}$ "
 Minimum Bend Radius 3"
 Letters Patent Nos. 529,527, 635,443 and 667,945

I.R.S. 768
 Metal Thickness .035" to .067"
 Glass Thickness $\frac{1}{4}$ "

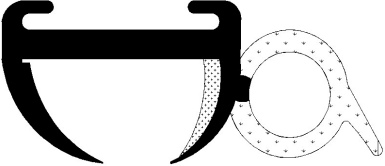

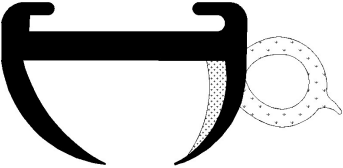

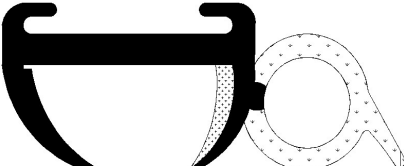

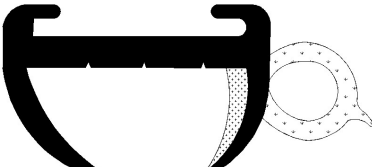

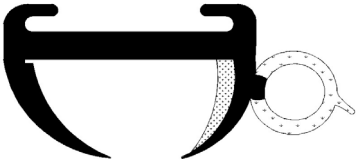

I.R.S. 783
 Metal Thickness $\frac{1}{8}$ "
 Glass Thickness $\frac{3}{8}$ "
 Minimum Bend Radius 5"

 <p>For 1.6 - 4mm panel</p>	DX79 *

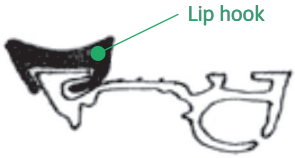

Self-Gripping Locker Seals

* Stocked item

Description	Baines Part Number
 <p>For 1.6 - 3mm panel</p>	DX80 *
 <p>For 1.6 - 3mm panel</p>	DX82 *
 <p>For 1.6 - 3mm panel</p>	DX86 *
 <p>For 6mm panel</p>	DX75 *

Tooling

* Stocked item

Description	Part Number
Fitting Tool for inserting PVC insert strips into caravan glazing sections 	BCRST1 *
Fitting tool for inserting Herzim Strips into channel 	B110P *
Caravan Awning Rail Fitting Tool 	BART1 *
Rail trim tool for fitting CRS13, CRS 22 and CRS 28  	BRT1 *

To use this tool, hold with the point and loop downwards.

The trim is put inside the hoop facing down.

Place over the aluminium profile, with the lip of the trim on the inside (see sketch blow).

Hold the end of the section and push the tool away towards the excess trim to feed it onto the rail.

The tool will not work on all rails, only with the lip rails as shown below.

Custom parts service

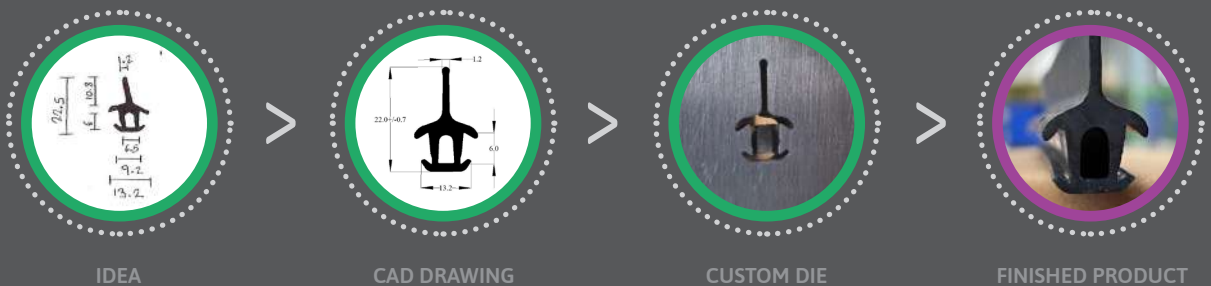

Still can't find exactly what you're looking for?

If you have a requirement for a rubber extrusion or component that is "a little bit non-standard", have designed a unique part to produce, need a sample reverse engineered or you are simply looking for a solution to a problem, get in touch with us today.

With over 80 years in the production and supply of Rubber Extrusions and Mouldings, our experts can assist you.

From concept to reality

See our website, www.coh-baines.co.uk for more details about our Custom Parts Service and to submit your enquiry.

Don't just buy it, Baines it
