Our sustainable and ethical approach

Cacao-Trace ensures top-quality chocolate and benefits all involved.

Through this program, farmers receive additional income for their cocoa beans, enabling them to dedicate more time to cultivation. This results in better yields and superior quality beans.

Our chocolate is crafted from the finest cocoa beans, subject to strict fermentation and drying processes overseen by the Cacao-Trace team.

Our sustainable packaging, made from renewable resources, is compostable and eco-friendly while ensuring product freshness.
