Foot & Body Dryer User Guide

BD-7700W / BD-7700B / BD-7700G

IMUNSEN

FOOT&BODY DRYER

READ THESE INSTRUCTIONS

This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety. Children should be supervised to ensure that they do not play with the appliance.

when the appliance is used in a bathroom, unplug it after use since the proximity of water presents a hazard even when the appliance is switched off -for additional protection, the installation of a residual current device (RCD) having a rated residual operating current not exceeding 30 mA is advisable in the electrical circuit supplying the bathroom. Ask your installer for advice.

If the SUPPLY CORD is damaged, it must be replaced by the manufacturer, its service agent or similarly qualified persons in order to avoid a hazard.

WARNING Do not use this appliance near bathtubs, showers, basins or other vessels containing water.

- Please read carefully through the user manual for safe and proper use.
- Do not use this item in humid places such as bathroom, shower, etc.
- Do not immerse in water.
- Exterior of the product may be altered for quality assurance without pre notice.
- The exterior of the product can be changed without a notice for quality assurance.
- The photo may be different from the actual product.
- Do not use it except for drying the user's body.
- This appliance has a polarized plug.
(one blade is wider than the other)
- To reduce the risk of electric shock, this plug is intended to fit in a polarized outlet only one way.
- If the plug does not fit fully in the outlet, reverse the plug.
- If it still does not fit, contact a qualified electrician.
- Do not modify the plug in any way.
- The product is for indoor use only. Do not use the product in outdoor.

FOOT&BODY DRYER

LISEZ CES INSTRUCTIONS

Cet appareil n'est pas destiné à être utilisé par des personnes (y compris des enfants) dont les capacités physiques, sensorielles ou mentales sont réduites, ou qui manquent d'expérience et de connaissances, à moins qu'elles ne soient supervisées ou n'aient reçu des instructions concernant l'utilisation de l'appareil par une personne responsable de leur sécurité. Les enfants doivent être surveillés afin de s'assurer qu'ils ne jouent pas avec l'appareil.

lorsque l'appareil est utilisé dans une salle de bains, débranchez-le après usage car la proximité de l'eau présente un danger même lorsque l'appareil est éteint - pour une protection supplémentaire, il est conseillé d'installer un disjoncteur différentiel (DDR) dont le courant résiduel nominal de fonctionnement ne dépasse pas 30 mA sur le circuit électrique alimentant la salle de bains. Demandez conseil à votre installateur.

Si le CORDON D'ALIMENTATION est endommagé, il doit être remplacé par le fabricant, son représentant ou des personnes de qualification similaire afin d'éviter tout danger.

AVERTISSEMENT N'utilisez pas cet appareil à proximité d'une baignoire, d'une douche, d'un lavabo ou de tout autre récipient contenant de l'eau.

- Veuillez lire attentivement le manuel d'utilisation pour une utilisation sûre et correcte.
- N'utilisez pas cet article dans des endroits humides tels que la salle de bain, la douche, etc.
- Ne pas l'immerger dans l'eau.
- L'extérieur du produit peut être modifié sans préavis pour des raisons de qualité.
- La photo peut être différente du produit réel.
- Ne l'utiliser que pour sécher le corps de l'utilisateur.
- Cet appareil est équipé d'une fiche polarisée (une lame est plus large que l'autre).
- Afin de réduire le risque d'électrocution, cette fiche est conçue pour être insérée dans une prise polarisée dans un seul sens.
- Si la fiche ne s'insère pas complètement dans la prise, inversez-la.
- Si elle ne rentre toujours pas, contactez un électricien qualifié.
- Ne modifiez pas la fiche de quelque façon que ce soit.
- Le produit est destiné à un usage intérieur uniquement. N'utilisez pas le produit à l'extérieur.

Precautions

Precautions for safe usage

The following instructions are to use the product safely and accurately to prevent unexpected risks or damage, so be sure to follow the instructions below.

Please read the manual after understanding the marking below and its contents.

Warning

If you ignore this mark and use it incorrectly, the user could result in death or serious injury. You may also experience fire and electric shock when failed to follow the instructions.

Caution

If you ignore this mark and use it incorrectly, the user could result in death or serious injury. You may also experience fire and electric shock when failed to follow the instructions.

Precautions

When installing

DANGER

- **If the power cord or plug is damaged, stop using the product and contact the A/S center for repair.**
It can cause an electric shock or fire.
- **Do not plug multiple products into one outlet.**
It can cause short circuits or fires.
- **Do not handle plugs with wet hands.**
It can cause an electric shock.
- **Do not bend or twist the power cord forcibly**
It causes fire or electric shock.
- **Please do not install the product in places with water. Do not use the product in humid places such as bathroom or showers, etc.**
It causes fire or electric shock.
- **Do not disassemble or modify the product**
If handled incorrectly, there is a risk of electric shock or injury.
If you need to dismantle the product, please contact the manufacturer to handle it.
- **Don't install it near the flammable objects.**
The product can be deformed, or the sheath can melt, causing the fire.

WARNING

- **Do not install in sloping or unstable areas.**
The product can be damaged or cause noise.
- **Do not install it in sub-zero temperature environments.**
The reliability of electronic control parts can be reduced, which can lead to product failure.

Safety Precautions

When using

DANGER

- If there is a strange sound, smell, or smoke from the product, unplug the power and contact the A/S center.
- Do not submerge the product in water.
- Do not jump on, or shock the product.
- Be careful not to let children or pets go up without their guardian's instructions.
- Do not block the air inlet or outlet.
- Do not put heavy objects on the power lines.
- If you don't use the product for a long time or if there is thunder and lightning, make sure to unplug the power.
- Do not wipe the product with flammable spray and flammable materials.

WARNING

- Please use it one person at a time.
- Please check the maximum allowable load and use the product.
- Do not put any objects or things on the device.
- Please clean the inlet regularly.
- After the operation is over, cool down the product enough and clean it up.

Cuando el producto detecta niños con un peso inferior a 20 kg y superior a 10kg, iniciará de manera automática con el ajuste bajo.

- Cuando requiera el ajuste alto para la fuerza del viento, toque el botón de control de fuerza del viento para cambiar el ajuste, por favor.
- La luz LED blanca se enciende cuando se utiliza el modo niños.
- La luz LED blanca no se enciende cuando una persona de más de 20 kg está utilizando el producto.
- Si el peso del usuario es inferior a 10 kg, utilice el modo manual, por favor.

8. Fin de la operación

Bájese del producto para finalizar su operación, por favor.

- Toque el botón de encendido del producto para finalizar su operación, por favor.
- Bájese del producto para finalizar su operación, por favor.
- Puede reiniciar el producto tocando el botón de encendido, o subiéndose en el producto durante 5 segundos una vez finalizada su operación.
- Si el usuario no se sube al producto durante 10 segundos después de haber tocado el botón de encendido, el producto finalizará su operación de manera automática. Bájese del producto para finalizar su operación, por favor.

Desconecte el producto después de usarlo, por favor.

Limpie la estructura con regularidad, por favor.

(Limpie los restos de agua en la estructura, por favor).

Limpie el filtro de entrada de aire con regularidad, por favor.

Maintenance

How to Clean the Air Inlet Product Cover

1. Precautions before cleaning the Product Cover

- Too much dust on the Product Cover can reduce the wind volume and increase noise.
- Clean the Product Cover about once to twice a month.
- Do not disassemble the product except when cleaning the Product Cover.
- If the Product Cover is torn or damaged, replace it with a new one.
- Do not disassemble, repair or modify the product except from our service center.

2. Detach the Product Cover case

- Lower the hook on the Product Cover case with your finger and pull it out toward your body.
- You may need some force when you detach it for the first time.

3. Disconnect inlet Product Cover

The inlet Product Cover is consisted of a filter case and a filter.

4. Clean the inlet Product Cover

- It is recommended to clean the Product Cover outdoors because it can cause a lot of dust.
- As the Product Cover is made of sponge material, please remove the dust first and then wash it with water.
- Please use the Product Cover when it is completely dry.

When cleaning with water, please do not use any detergent.

5. Above cleaning method

- Please wipe the remaining water with a dry towel.

 - Cartridge, filter or accessory defect.
3. Please note that all parts removed for repair will be taken by our team.
4. This warranty will not be reissued.

Thank you for your understanding.

WEEE Directive

This marking shown on the product or its literature, indicates that it should not be disposed with other household wastes at the end of its working life. To prevent possible harm to the environment or human health from uncontrolled waste disposal, please separate this from other types of wastes and recycle it responsibly to promote the sustainable reuse of material resources.

Household users should contact either the retailer where they purchased this product, or their local government office, for details of where and how they can take this item for environmentally safe recycling.

Business users should contact their supplier and check the and conditions of the purchase contract.
 This product should not be mixed with other commercial wastes for disposal.
