# PARTS LIST

## IMPORTANT

- Remove all packaging materials before use but keep the safety instructions with the product.
- Make sure the lid is closed prior to assembly.

Prior to assembly, check all parts against the parts list. Carry out assembly on a soft surface to avoid scratching the paint. For ease of assembly, only loosely tighten bolts to put the pieces together and then tighten fully when assembly is complete.

## WARNING

DO NOT over-tighten bolts. Only tighten all bolts with moderate pressure to avoid damaging the bolts or components of the Kamado Grill.

# ASSEMBLY INSTRUCTIONS

## STEP 1

Attach the pre-threaded castor wheels (2 & 3) to each of the three brackets (1). Use 1x dome-headed nut (B), 1x spring washer (D) and 1x flat washer (C) to secure each connection.

## STEP 3

Secure the brackets (1) to the crosspieces (4) by using the 12x screws (A). Please refer to the graph shown in below.

## STEP 2

Assemble the cart: insert the two crosspieces (4) into two of the three brackets (1) from both the top and bottom.

#### STEP 4

Make sure the cart is secure, and all of the bolts are tight before placing the Kamado Grill into it. Press down on the castor levers (2) to lock the castor wheels to make sure the Kamado cannot move.

#### CAUTION

**Please gently operate the grill (e.g., opening the lid) when the grill is on the cart to avoid knocking the set off balance.**
