

Senior Spa Therapist

About the role:

You will work closely with the spa manager to ensure that the spa is operating to optimum capacity, in addition to your daily duties as a therapist. This is achieved by various responsibilities such as training, client care and offering guidance to the other team members.

Responsibilities:

While also maintaining your duties as a Spa Therapist, you will be also responsible for other managerial aspects of the spa. Examples of these tasks can be stock monitoring, management of day-to-day salon duties, organisation, local marketing and ensuring health and safety rules are being followed.

One of the essential tasks of a Senior Therapist is monitoring the stock levels of the equipment at the spa as well as arranging their restock.

Requirements:

Qualifications and Experience - SVQ Beauty Level 3, supervisory and people management experience.

Knowledge and Skills - Computer literate, organised, training delivery, health & safety knowledge, proven sales achievements.

Personal Qualities - Good communication skills, confident, driven, uses initiative, good judgement, dependable, approachable.

Motivation and Expectations - The ideal candidate would show a desire to develop the role as well as their own career. You would hold a high expectation of yourself and others.
