

# Product Specification / Data Sheet

**Item:**

## Cross Weave Netting 70 GSM

**Options Available:**

Mesh Sizes: 10mm x 2-3mm

Bundle Sizes: 10m x 6.5m, 100m x 6.5m

Colours: White

Construction: Crossweave Pattern

**General Information:**

Our Cross-Weave mesh features a series of “primary” mesh rows, with additional cross weave stitches throughout. It is a strong netting that can be used for:

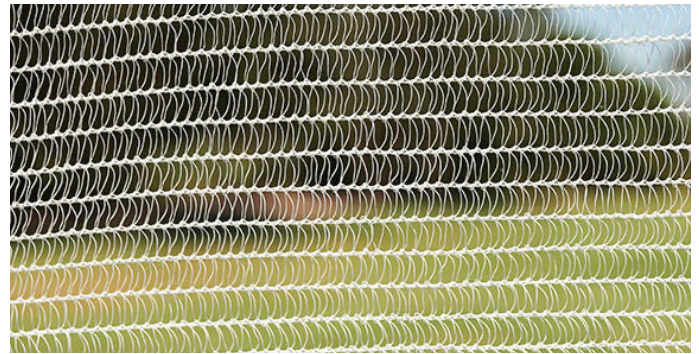

- Small Mesh Anti Bird Netting
- Hail Protection netting

The benefit of the cross-weave design is to allow the mesh size to be reduced, whilst keeping weight and overall shade creation to a minimum.

This netting features a REINFORCED 40mm edging along the long sides of the net.

**Applications:**

- Hail Netting
- Small Mesh Bird Netting

**Socially responsible wildlife choice of netting.**
