STEP 1

Connect with your body.

PHONE PLEASURE

Take a breath. Begin to calm your mind. Let the tension unfold from your fingertips down to your toes.

Use your intimacy cards. If you're solo, use them to connect your mind with your body, or use with a partner to create greater connection.

STEP 2

Explore yourself.

Did you know 73% of vulva-owners report* they haven't ever seen their own vulva up-close?

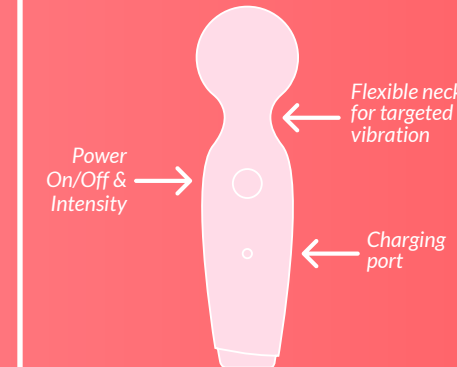

Use your mirror to map where feels good to touch. By understanding your own anatomy, you can better advocate for your own pleasure.

STEP 3

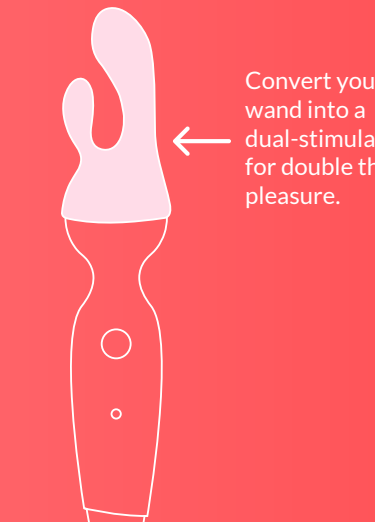

Turn on your Dream Wand.

Relax. Don't Rush. Enjoy the feeling of new sensations and vibrations without pressure of reaching any 'end goal'.

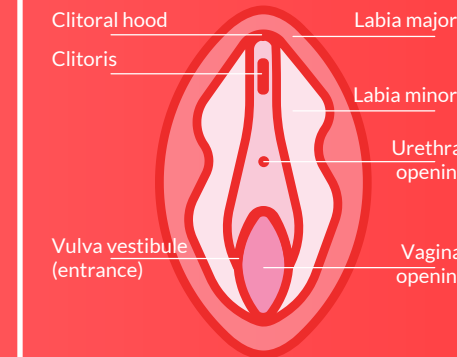

STEP 4

Add your Cloud attachment.

ANATOMY

The vulva is the exterior part of your anatomy and can be a major pleasure zone.

CHARGING

- If your vibe is low, it's time to charge.
- First, plug your USB cord into a standard charging block (high-power charging blocks may damage the battery).
- Insert the DC jack into the small circle charging port. Be gentle, but firm, until it's in as far as it can.
- The light on your vibe will flash to indicate that it's charging. When it is fully charged, the light will change to a steady glow.

CARE

- Avoid silicone-based lubricants as this could kill your vibe.
- Wash with warm water and soap or toy cleaner.
- Wipe with a dry cloth or air dry. Store in a cool, dry place and keep your vibe away from toys made of other materials.
- Charge periodically to maintain the battery life.
- Do not use oil-based lubricants or massage oils as it may damage the vibe.
- Do not leave in direct sunlight or expose it to extreme heat.
