WOCA COMMERCIAL SOAP INSTRUCTIONS

Commercial Soap (formally known as Master Soap) is for frequent and daily cleaning of floors and does not leave a film or residue. It is ideal for commercial floors, such as restaurants or retail spaces, where constant cleaning is necessary.

An oiled wood floor that is regularly cleaned with Commercial Soap, should also be maintained with WOCA Oil Refresher on a periodic basis to keep the surface durable.

WOCA Commercial Soap may be used for the cleaning of all wood surfaces, tile, vinyl and stone. WOCA Commercial Soap can be applied manually or with a floor machine.

Follow these simple steps:

1. Mix 1 cup of Soap into 1 gallon of lukewarm water.
2. Damp mop the floor with a well wrung, high quality cotton yarn mop.

Packaging: 5 Litre Container
