USING THIS ORDER GUIDE

The Bianchi product models in this book are arranged first numerically and then alphabetically. To find a particular item, scan the categorized Table of Contents then find that page number to locate your product. To determine whether a specific Bianchi holster or magazine fit is available, refer to the Selector Guides on pages 4 through 8. Handgun manufacturers are listed alphabetically. Locate the gun model then read horizontally across to find a Bianchi holster to fit. A retail price list is included at the back of this book for quick reference.

FIT GROUPS

Dealers placing a stocking order can easily determine which gun models fit the same Bianchi holster size by referencing the Fit Group numbers in the left most column. Available models are generally listed alphabetically by gun manufacturer. The number of holster fits and/or holster sizes have also been included in each holster's features section.

EXAMPLE:

The Bianchi Model 3S has 16 Fit Groups, or rather, we offer 16 different RH fits for the Model 3S. If you order the size to fit the Ruger SP101 (FIT GROUP 1), it will fit all the holsters indicated in FIT GROUP 1.

Note that where we already offer specific holster sizes (i.e. the Model 7001, Fit Groups 12, 13, etc.) the "FIT GROUPS" will be the actual holster size number.

HOW TO MEASURE BARREL LENGTH

Before ordering a holster, have the barrel length measurement for the handgun available. This measurement is easy obtain and will ensure that the holster is the correct fit for the firearm.

Revolvers – Measure barrel length from the face of the cylinder to the muzzle.

Semiautomatics – Measure barrel length from the rear portion of the ejection port to the muzzle.

NO MODIFICATIONS OR CUSTOMIZING

It is not possible to alter or modify Bianchi products in any way. Custom modifications, of any kind, are not available as to ensure satisfaction with time-tested, proven designs. The Company reserves the right to improve product designs and update specifications without notice.

BELT SIZING FOR A PERFECT FIT

Bianchi belts are sized from the middle hole of the belt to the buckle tongue. To be certain of correct size, use a tape measure.

- Duty Belts are 2" oversized to accommodate liner belt and padding. Specify exact waist size when ordering.
- Dress Belts are sized to exact waist measurement over trousers.
- Duty Belt models 7225, 7955 and 7965 are 4" oversized.

IMPORTANT CONSUMER SAFETY INFORMATION

Bianchi holsters and accessories are designed to meet the demand for high performance products for law enforcement and civilians. When fit and used properly, a holster is a valuable aid in carrying a firearm. Any person purchasing or using a Bianchi holster should read and understand the following warning and all instructions included with their holster, as well as be thoroughly familiar with the proper and safe use of their firearm in the circumstances in which they are using it.

Close tolerances for holster/handgun fit require consistent handgun specifications and characteristics, as well as extremely precise holster design. Safariland® "the company" produces its products in this manner of quality materials with efficiency and safety in mind. Although these warnings may not pertain to all Bianchi products, or all circumstances, they should be read prior to the purchase, sale or use of any product. Some products have special and/or supplemental instructions and/or safety information that must be read prior to their use. Call the Company 800-347-1200 for copies of these materials.

TRAINING AND PRACTICE

Use of a handgun under any circumstance may be dangerous. SERIOUS INJURY OR EVEN DEATH may result without proper training in the safe handling of firearms. Proper training should be obtained from an accredited firearms safety program and conducted by competent, qualified instructors in the military, police academies or National Rifle Association affiliated instruction programs. A firearm should not be carried or used without a thorough knowledge of its characteristics and safe use in the circumstances in which it is intended to be used. It is also the user's responsibility to be certain that their firearm is in proper, safe operating condition.

We strongly recommend a regular holster practice regime be utilized to assure the continued capabilities of both the Bianchi product and its user. For any questions concerning Bianchi products, call the Company at 800-347-1200.

PROPER HOLSTER FIT

NEVER PLACE A LOADED HANDGUN IN A HOLSTER WITHOUT FIRST TESTING FOR PROPER FIT WITH THE HANDGUN UNLOADED. Although the Company attempts to provide accurate information regarding which specific holster models were designed to accommodate a specifically identified handgun, or handguns, it does not warrant the accuracy of such information and specifically disclaims any responsibility or liability for, or consequences resulting from, errors or inaccuracies in such information. Users are advised not to rely on such compatibility information but are advised to personally verify holster/handgun compatibility in each and every case using actual products.

Handgun manufacturers continually update manufacturing specifications in their quest for better products. These changes may occur one or more times within a particular handgun model year, and make it difficult for proper handgun identification and holster fit.

The slightest change in handgun design can have a major safety effect on the close tolerance of Bianchi products. These changes may not affect other holster brands that do not maintain the same high standards.

If the user has any questions or doubt concerning holster fit, contact the Company immediately as to which version of a particular handgun you and/or your customer may possess, and its compatibility with Bianchi holsters.

Be advised that it is the user's responsibility to periodically check his or her holster and related hardware for proper fit and function. Should any product, including a Bianchi product, become worn, loose, broken, defective or ill fitting, CEASE USE IMMEDIATELY.

OTHER VERY IMPORTANT WARNINGS

Cocked Hammers

Do not attempt to cock a handgun while holstered as such cocking can cause severe damage to either the handgun or holster, or both, and may cause an ACCIDENTAL DISCHARGE.

Some users of certain handgun models insist on carrying the weapon in what is referred to as a cocked and locked condition (i.e. the gun is cocked with the safety engaged). The Company does not recommend or approve of any such practice, and advises against it. This condition for such handguns should be reserved only for the most advanced, experience and skilled professional shooters under conditions that require the handgun to be drawn and fired under extremely short time constraints. Carrying a handgun in this condition INCREASES THE RISK OF ACCIDENTAL DISCHARGE. It should only be used by those who have the training and experience to recognize the inherent risks associated with it.

Take-Away

It should be noted that NO HOLSTER IS COMPLETELY SNATCH-PROOF OR TAKEAWAY-PROOF. Therefore, the user must exercise extreme diligence at all times in any situation where another person may attempt to take the user's handgun. The handgun should be held in place by the user whenever vigorous activity such as running, jumping, falling or tumbling is encountered or attempted. ALWAYS keep safety straps snapped if the holster is so equipped.

Holstering

Always point your handgun in a safe direction and use extreme caution when holstering or unholstering your handgun to avoid an accidental discharge. Keep thumb on back of hammer or slide when inserting handgun in holster to help assure no movement occurs during insertion. Always keep fingers clear of trigger when drawing or replacing handgun in holster. Place index finger on outside of trigger guard to resist inadvertent strap or foreign object interference when re-holstering. Be certain the firearm is firmly seated in the holster and that any integral strap is properly engaged.

IMPORTANT CONSUMER SAFETY INFORMATION (CONTINUED)

Loaded Firearms

Carrying a firearm with a live cartridge in the chamber could result in an accidental discharge. Certain single-action revolvers and semiautomatic pistols should only be carried with the hammer or firing pin resting on an empty chamber. It is the user's responsibility to exercise extreme caution when handling or carrying any handgun and to assume at all times that the gun is loaded.

Alteration

DO NOT use Bianchi holsters with custom or modified guns, broken, worn or inferior manufactured guns, including guns that are not of original factory specifications. DO NOT use after-market grips, not manufactured by Safariland Duty Gear Products, grip adapters, target hammers, target triggers, or trigger shoes. After-market handgun modifications may cause improper holster fit and ACCIDENTAL HANDGUN DISCHARGE. Never attempt to modify Bianchi products in any way.
