MODEL 101 FOLDAWAY™

The Bianchi® Model 101 Foldaway™ is an innovative, yet basic holster design that allows the wearer to comfortably holster a handgun as close to the body as possible without being an IWB (inside waistband) holster. When not carrying the firearm, the holster can be folded flat to an inconspicuous patch of leather on the belt.

TO USE

- Thread a 1.5" (38mm) or smaller belt through both sides of the holster, with the trigger guard cutout facing the rear (unless wearing cross draw).
- Press the holster together so that there is sufficient room between the two belt slots and exterior of the belt for the handgun (fig. 1).
- Place handgun in the open gap between the interior of the holster and the exterior of the belt. Be sure that the handgun slides all the way through the leather until the trigger guard is fully seated into the cutout on the holster (fig. 2). As needed, adjust width and depth of holster opening with hand.

NOTE

For first time use, there may be a break in period to loosen the leather.

- To draw firearm, simple use a normal straight up draw until the firearm is clear of the holster.
- If no longer using the foldaway as a holster on the belt, it can be simply folded away by pressing our on both sides of the holster around the belt loops and then flattened down by hand (fig. 3)

IMPORTANT SAFETY WARNINGS

- Improper or careless use of a firearm and holster may result in serious injury or death. It is the user's responsibility to have thorough knowledge of and be properly trained in all aspects of firearm and holster safety and use.
- Do not carry any handgun with a round in the chamber unless you have received professional training in the use of the handgun and holster and are willing to assume responsibility and risk (including accidental discharge) of carrying a loaded handgun.
- If your handgun is equipped with a safety lever, be sure that safety is engaged when holstering the handgun.
- When drawing a handgun from a holster or placing it into a holster, do not place finger in the trigger guard or near the trigger guard. Position trigger finger adjacent to but away from the trigger and, if possible, support the tip of the finger on the front of the trigger guard.
- When putting a handgun in the holster always place thumb over the hammer or behind the slide.
- Always secure the retaining or safety strap(s) on holster after inserting handgun in holster.
- Never holster any semi-automatic handgun in a single-action mode (except handguns which are single action only; ex. Colt 1911 or the Browning Hi-Power).
- Do not attempt to cock a holstered handgun as this can cause severe damage to the handgun or holster or both and may contribute to an accidental discharge.
- Always place hand on the handgun and holster when running or performing other vigorous activity.
- Do not use customized, modified, worn or broken handguns or those that are not of original manufacturers specifications in Bianchi holsters.
- Do not, in any way modify, disassemble or remove any part from this holster.
- Do not rely on any holster being snatch proof. There is no such holster. Rely only on extensive, proper training and vigilance.
- It is the user's responsibility to properly maintain the holster by checking components such as snaps, screw, etc. for proper function.
- Be aware that handguns with lights mounted to them create an opening in the holster that could possibly allow access to the trigger.

WARNING: Failure to heed these warnings or follow the operating instructions may result in accidental discharge of a handgun causing serious injury or death.
