

Temperature Sensor

WI-FI ELECTRIC WATER HEATER **CONTROLLER**

Optimize Comfort, Maximize Savings

The TrickleStar® TS2301 Wi-Fi Electric Water Heater Controller can help you save money by saving energy through reducing your water heating costs. With Wi-Fi connectivity, smart scheduling and the use of the TrickleStar Portal and TrickleStar App (iOS and Android), you can control your water heating timing and duration from anywhere. This Water Heater Controller is compatible with Google Assistant and Amazon Alexa. It is also easy to install, and it can be retrofitted to most types of electric water heaters in the U.S., making the TrickleStar Wi-Fi Electric Water Heater Controller a smart choice for your smart home.

TS1919 Flood Sensor (Optional)
