

Our online store has been made so that it can be utilized as an online catalog; every work of art can be seen online, in our minimalist gallery, as well as right in the comfort of your home.

Splash of Art's objective is to **share with everyone the minimalist artwork of skilled designers**, either well-known or emerging. This is why we make every effort to provide all our luxury art, in spite of size and printing support, at a fraction of the cost for everyone without compromising the quality of the materials. Additionally, we are also dedicated to empowering the artists and authors of the work; they are key elements in this project.

Your home is your place, and **that is why decorating it to your liking is very vital**. You have to feel at ease in your space. And surrounding yourself with luxury art you love will assist you in taking pleasure where you spend most of your time.
